

Starline brass (#4200) 7.62x25 Tokarev

[Reloading](#) > [Brass](#) > [Pistol Brass](#)

This case is very similar, except for the difference in length, to the .30 Mauser. Due to higher operating pressures, if the .30 Mauser cases are fired with hotter 7.62x25 loads in the CZ-52, it will tear the neck off some cases. 30 Mauser O.A.L. is .980" to .985" while 7.62x25 O.A.L. is .958" to .962". We recommend using bullets of .308" diameter in our brass.

Quantity: 1000

Starline Brass (#4200) 7.62x25 Tokarev Safety Instruction Guide

Introduction

Thank you for choosing Starline Brass (#4200) 7.62x25 Tokarev. This guide provides essential safety instructions to ensure the safe use and handling of this product. Please read and follow all guidelines carefully to minimize risks and ensure proper usage.

General Safety Guidelines

- Always handle brass cases with care, as improper handling may lead to injury or damage.
- Store brass in a cool, dry place away from direct sunlight to prevent deterioration.
- Inspect cases for any signs of damage before use. Do not use damaged or deformed cases.
- Keep brass cases out of reach of children and pets to prevent accidental ingestion or injury.
- Follow all local laws and regulations regarding the use of ammunition components.

Specific Safety Precautions for Use

- **Compatibility:** Ensure that you are using the correct caliber and type of brass for your firearm. The Starline 7.62x25 brass is designed specifically for the Tokarev cartridge.
- **Operating Pressures:** Be aware that the 7.62x25 Tokarev operates at higher pressures than the .30 Mauser. Using .30 Mauser cases with hotter 7.62x25 loads may cause case failure.
- **Neck Separation Risk:** If using .30 Mauser cases, avoid firing them with hotter 7.62x25 loads in the CZ52, as this may lead to neck separation.
- **Bullet Diameter:** Use bullets with a diameter of .308 inches for optimal performance and safety.
- **Reloading:** If reloading, follow all recommended guidelines for powder selection, charge weight, and overall cartridge length (O.A.L.). The O.A.L. for .30 Mauser is .980" to .985", while for 7.62x25, it is .958" to .962".

Instructions for Installation and Usage

- **Preparation:**
 - Ensure your workspace is clean and free of obstructions.
 - Gather all necessary tools and materials before starting the reloading process.
- **Reloading Process:**
 1. Inspect each brass case for cleanliness and structural integrity.
 2. Resize the brass cases as necessary using the appropriate resizing die.
 3. Clean the inside of each case to remove any debris or residue.
 4. Insert the primer into the case, ensuring it is seated properly.
 5. Measure and add the appropriate amount of powder according to your reloading manual.
 6. Seat the bullet into the case, ensuring it adheres to the recommended O.A.L.
 7. Perform a final inspection of the loaded cartridge to ensure it meets safety standards.
- **Firing:**
 - Always follow the manufacturer's instructions for your firearm.
 - Use proper ear and eye protection when firing.
 - Ensure the firing area is safe and clear of any obstructions or bystanders.

Disposal Instructions

- Dispose of any damaged or unusable brass cases in accordance with local regulations.
- Recycle brass cases whenever possible to minimize environmental impact.
- Do not dispose of brass cases in regular household waste.

Contact Information for Further Support

For any safety inquiries or concerns regarding the Starline Brass (#4200) 7.62x25 Tokarev, please refer to the appropriate channels for assistance. Always ensure you are using the product safely and responsibly.

By following these safety instructions, you help ensure a safe and enjoyable experience with your Starline Brass (#4200) 7.62x25 Tokarev. Thank you for your attention to safety.
