

RMR CUT SLIDE FOR GLOCK® 19 GEN 3 - BROWNELLS RMR SLIDE +WINDOW FOR GEN3 GLOCK® 19 FDE PVD

[Handgun Parts](#) > [Slide Parts](#) > [Slides](#)

Integral Red Dot Sight Mounting Slot, Plus a Ton of Custom Features!

The limited production Brownells Brown RMR Slide for Glock® 19 Gen3 pistols features a pre-cut slot for easy, secure, low-profile mounting of a Trijicon RMR or Holosun red dot sight. Up front, there are distinctive, cocking serrations that aid in manipulating the slide to check the chamber or clear a jam. And we'll admit it: the serrations just look cool, too. All RMR Slides also have standard Glock® factory front and rear sight dovetails for "iron" sights. To get proper co-witnessing with the RMR, you will need to also install suppressor-height iron sights. These limited production Brownells Brown slides for the Glock® 19 Gen3 come with a "window" cutout on top between the front serrations that enhances airflow to keep the barrel cooler - ideal for hard-working action competition pistols. Plus, if you have an upgraded barrel with a contrasting finish or a unique exterior pattern (fluting, spirals, "flames," etc.) the window lets you show it off a bit! A Brownells RMR Slide is the ideal upgrade for your factory Glock® 19 Gen3 OR the perfect "top half" for a brand-new custom gun built on a Polymer80 80% frame. Fits Gen3 Glock® 19 pistols & clones Built-in Trijicon RMR mounting slot Also accepts Holosun HE508T, HS507C & HS407C red dot sights Factory front/rear iron sight cuts, too Machined from corrosion-resistant 17-4 stainless steel billet Each RMR Slide for Glock® starts life as a billet of 17-4 stainless steel that is machined to Glock® factory specifications inside, so it'll accept factory or aftermarket barrels and internal parts. Each slide is heat-treated to Rc 41-44 on the Rockwell C scale for added surface hardness and wear resistance. The Brownells Brown slide is a limited production and once they are gone, they're gone. Brownells Gun Tech™ Note: Channel liner required for these slides. Channel liner is a press fit and requires a tool to install. We recommend #777-100-017. Includes patented optic cut technology pioneered by ZEV Technologies. Patent No. RE47335

Safety Instruction Guide for RMR Cut Slide for Glock® 19 Gen 3

Introduction

Thank you for purchasing the Brownells RMR Cut Slide for Glock® 19 Gen 3. This guide provides essential safety information and instructions to ensure the safe use and installation of your product. Please read this guide carefully before using the slide.

General Safety Guidelines

- Ensure that you are familiar with the operation of your Glock® 19 Gen 3 before installing the RMR slide.
- Always handle firearms with care and follow all standard safety practices.
- Keep the slide and all firearm components out of reach of children and unauthorized users.
- Inspect the slide for any signs of damage or wear before installation.
- Use only compatible red dot sights (Trijicon RMR or Holosun models specified) to avoid malfunction.
- Be aware of the potential hazards associated with firearms and their accessories.

Specific Safety Precautions for Use

- Only use the RMR slide with Gen3 Glock® 19 pistols and compatible clones.
- Ensure that the firearm is unloaded before installing or modifying any components.
- When installing the slide, take care to avoid pinching fingers or other body parts.
- Follow all instructions closely to ensure proper installation and functionality.
- Use suppressorheight iron sights for proper cowitnessing with the RMR sight.
- Do not attempt to modify the slide or any components, as this may lead to unsafe operation.

Instructions for Installation and Usage

1. Preparation

- Ensure that your Glock® 19 Gen 3 is completely unloaded.
- Gather the required tools, including the recommended channel liner installation tool (#777100017).

2. Installation Steps

- Remove the factory slide from the Glock® 19 Gen 3 frame.
- Inspect the internal components of the factory slide to ensure compatibility.
- Install the channel liner into the new RMR slide using the appropriate tool.
- Align the RMR mounting slot with the desired red dot sight and secure it according to the sight manufacturer's instructions.
- Reattach the slide to the Glock® 19 Gen 3 frame, ensuring all components are properly seated and functioning.

3. PostInstallation Checks

- Perform a function check to ensure the firearm operates correctly.
- Check that the red dot sight is securely mounted and properly calibrated.
- Ensure that the firearm is clean and free of obstructions before use.

Disposal Instructions

- Dispose of any packaging materials in accordance with local waste management regulations.
- If the slide or any components become damaged beyond repair, follow local guidelines for the safe disposal of metal and plastic materials.

Contact Information for Further Support

For any inquiries regarding safety or product support, please refer to the manufacturer's website or contact your local dealer. Always ensure you have the latest information regarding product recalls and safety notices.

Conclusion

By following these safety instructions and guidelines, you can help ensure a safe and enjoyable experience with your Brownells RMR Cut Slide for Glock® 19 Gen 3. Always prioritize safety and responsible firearm handling. Thank you for choosing Brownells.
