Match-Grade Tube Helps You Get the Most from Your Long-Slide Glock

Our Match-Grade Barrel for the Glock® 34 is compatible with ALL generations of Glock's target 9mm pistol, Gen1 through Gen4. These barrels are machined from hardened 416R stainless steel to precise dimensions for a tight lockup that helps ensure superb accuracy. Drop-in fit on most guns, too. An extra-hard Black Nitride finish resists surface wear and stops in its tracks whatever corrosion might try to challenge the stainless steel. This 9mm Luger (9x19mm) chambered barrel is button-rifled with standard, 1-10" right-hand, 6-groove rifling that is compatible with "practice" ammo with non-jacketed bullets. You can get a Brownells match-grade barrel for your Glock® 34 with either a Plain muzzle with an 11-degree target crown or Threaded (1/2"-28 tpi) to enable installation of a compensator or sound suppressor. Both are laser-engraved with the chambering and the Glock model they fit. Fits Glock® 34 Gen1 thru Gen4 Button-rifled, 6-grooves, 1-10" twist Hardened 416R stainless steel Non-reflective Black Nitride anti-corrosion finish Threaded model has 1/2"-28 tpi threads A Match-Grade Barrel for Glock® 34 from Brownells is an excellent replacement for a shot-out factory barrel or for building a pistol based on the G34 platform. And it's the ideal tube for a custom gun built on a Polymer80 frame with a Brownells RMR Slide on top!

Safety Instruction Guide for Match Grade Barrels for Glock® 34

Introduction

Thank you for choosing the Match Grade Barrel for your Glock® 34 from Brownells. This guide provides important safety information to ensure the safe use and installation of your barrel. Please read the instructions carefully before use.

General Safety Guidelines

- Ensure that the product is compatible with your specific Glock® model and generation (Gen 14).
- Only use ammunition that is specified for use with the 9mm Luger (9x19mm) chambered barrel.
- Regularly inspect the barrel for signs of wear or damage before each use.
- Store the barrel in a secure location, away from children and unauthorized users.
- Follow all local laws and regulations regarding the use and ownership of firearms and firearm accessories.

Specific Safety Precautions for Use

- Always treat your firearm as if it is loaded, even when it is not.
- Use eye and ear protection when shooting.
- Be aware of your surroundings and ensure a safe shooting environment.
- Never point the firearm at anything you do not intend to shoot.
- If you experience any malfunctions, cease use immediately and consult a qualified gunsmith.

Instructions for Installation and Usage

1. Installation:

- Ensure the firearm is unloaded and the magazine is removed.
- Carefully remove the existing barrel from the Glock® 34 by following the manufacturer's instructions.
- Align the Match Grade Barrel with the slide and gently insert it into place.
- Ensure the barrel is seated properly and securely locked in place.
- If using the threaded model, ensure that the threads are clean and free from debris before attaching any accessories.

2. Usage:

- Load the firearm with appropriate 9mm Luger ammunition.
- Ensure that the firearm is pointed in a safe direction before firing.
- Follow standard shooting practices and maintain control of the firearm at all times.
- Clean the barrel regularly to maintain optimal performance and accuracy.

Disposal Instructions

- Dispose of the barrel in accordance with local regulations regarding metal recycling and hazardous waste.
- Do not dispose of the barrel in regular household waste.
- Contact local recycling centers for proper disposal methods.

Contact Information for Further Support

For any inquiries regarding the safety or use of the Match Grade Barrel for Glock® 34, please consult the manufacturer's website or contact their customer support for assistance.

By following these guidelines, you can ensure a safe and enjoyable experience with your Match Grade Barrel for Glock® 34. Thank you for your attention to safety and responsible firearm ownership.
