## A Scope That Does Justice To Your Precision Rifle - from Brownells!

The Brownells 3-18x50mm Match Precision Optic® rifle scope gives you key features found on high-end scopes at a surprisingly modest price. We started with fully multi-coated, edge-blackened Japanese glass for maximum light transmission. The turrets offer tactile and audible clicks and are easy to reset to zero. Elevation turret features a zero stop and allows .5 mils of travel below the zero stop, to give you plenty of flexibility 34mm Main Tube Reticle and Turrets in MRAD for quick and easy adjustments First Focal Plane Illuminated N-OMR® System ED Lenses Fully multicoated lenses for fog and waterproof performance Capped Windage turret prevent accidental adjustment The N-OMR® System (Non-Obscuring Milling Reticle® System) has an open center main crosshair that allows you to hold on your target without covering it. An added bonus is the thin double line increase visibility of the crosshair at low magnification. This type of reticle is excellent for shooting disciplines requiring fast shots under a time constraint, or when fast follow up shots are needed. The top portion of the N-OMR® System is intentionally left open so the shooter can spot his/her own shots (or misses). To make things easier, the N-OMR® System is available within the popular ballistic app Strelok, available for download on most all mobile devices. The Brownells 3-18x50mm MPO is the perfect optic for the long-range competitor whose budget is not unlimited, somebody who wants to get started in the sport, or someone looking to maximize a Production Class rifle build. As with all products we sell, this scope is fully backed by our Forever Guarantee.

# Safety Instruction Guide for MATCH PRECISION OPTIC (MPO) 318X50MM FFP ILLUM. RIFLE SCOPE

## Introduction

Thank you for choosing the Brownells Match Precision Optic® (MPO) 318X50MM FFP Illuminated Rifle Scope. This guide provides essential safety instructions and guidelines to ensure the safe and effective use of your new rifle scope. Please read this manual carefully before using the product to familiarize yourself with the necessary precautions and operational instructions.

## General Safety Guidelines

- Ensure that the rifle scope is only used for its intended purpose as a sighting device for firearms.
- Always handle firearms and optical devices with care and responsibility.
- Keep the rifle scope out of reach of children and unauthorized users.
- Regularly inspect the rifle scope for any signs of damage or wear. Do not use if any damage is detected.
- Store the rifle scope in a cool, dry place when not in use to prevent moisture damage.
- Always use the scope in a safe and controlled environment, free from distractions and hazards.

## Specific Safety Precautions for Use

- **Eye Protection:** Always wear appropriate eye protection when using the rifle scope to guard against potential eye injuries.
- **Firearm Safety:** Follow all standard firearm safety rules, including keeping the firearm pointed in a safe direction and keeping your finger off the trigger until ready to shoot.
- **Illumination Caution:** The illuminated reticle may cause distraction in lowlight conditions. Use caution when adjusting brightness settings.
- **Zeroing the Scope:** When zeroing the scope, ensure that the firearm is securely supported and that you are in a safe shooting position.
- **Environmental Conditions:** Avoid using the rifle scope in extreme weather conditions that may impair visibility or safety.
- **Alcohol and Drugs:** Never use the rifle scope while under the influence of alcohol or drugs.

## Instructions for Installation and Usage

### 1. Installation:

- Ensure that the firearm is unloaded and pointed in a safe direction.
- Mount the rifle scope onto the firearm's rail or rings according to the manufacturer's instructions.
- Tighten the mounting screws securely but avoid overtightening, which may damage the scope or firearm.

### 2. Zeroing the Scope:

- Choose a safe shooting range to zero your scope.
- Use a stable shooting platform to minimize movement.
- Fire a group of shots to determine where the rounds are hitting relative to the point of aim.
- Adjust the elevation and windage turrets as needed to align the point of impact with the point of aim.

### 3. Using the Scope:

- Adjust the magnification as needed for your shooting distance.

- Use the illumination feature in lowlight conditions for better visibility.
- Always keep both eyes open while aiming to maintain situational awareness.

## **Disposal Instructions**

- Dispose of the rifle scope in accordance with local regulations regarding electronic waste and optical devices.
- Do not dispose of the scope in regular household waste. Instead, take it to a designated electronic waste recycling facility.

## **Contact Information for Further Support**

For any questions or concerns regarding the Match Precision Optic® (MPO) 318X50MM FFP Illuminated Rifle Scope, please refer to the manufacturer's website or customer support resources for assistance.

## **Conclusion**

Your safety and the safety of others is paramount. By following these guidelines and instructions, you can ensure a safe and enjoyable experience with your Brownells Match Precision Optic® rifle scope. Always prioritize safety in all aspects of firearm use and handling.
