

MATCH PRECISION OPTIC (MPO) 1-6X24MM SFP ILLUMINATED RIFLE SCOPE - BROWNELLS MPO 1-6X24MM SFP ILLUMINATED LPVO DONUT RETICLE BLACK

[Optics & Mounting](#) > [Scopes](#) > [Rifle Scopes](#)

The Brownells 1-6x24 Match Precision Optic with Illuminated Donut Reticle provides an uncluttered reticle, leading to rapid target acquisition and fast shots. Inspired by the reticle in the original optic provided on the Austrian StG77, the "Donut" reticle is simplistic, while still providing basic ranging capabilities. The simple Donut ring allows your eye to naturally place the target in the center, ensuring fast alignment. The addition of horizontal bars make initially leveling the scope easy, and provide indicators of the rifle's cant when in use. The reticle is illuminated red by a single CR2032 battery, with 6 brightness settings, including off position between each setting. This 1-6x24 Rifle Scope is assembled for Brownells in Japan, using glass with multicoated lenses and a glass etched reticle. Precise elevation and windage mechanisms adjust in 0.1 MIL increments and have 40 MILs of adjustment range each. Turrets are capped to prevent unwanted changes. Forgiving eye relief of 3.5 inches and eye box permit firing even from unique shooting positions. The Second Focal Plane configuration with 1-6x provides an easy to acquire reticle at any magnification. Illuminated Second Focal Plane "Donut" Reticle Fully Multicoated Lenses 30mm Main Tube Capped Elevation and Windage Turrets Made in Japan Ranging with the Donut reticle can be done at 1x, as the original Stg77 reticle ranging was done at low magnification as well (1.5x).

Attributes

- Name: [BROWNELLS MPO 1-6X24MM SFP ILLUMINATED LPVO DONUT RETICLE BLACK](#)
- Manufacturer: [BROWNELLS](#)
- Product no.: 080001408
- Mfr. No.: MPO1624DONUT
- Battery: CR-2032
- Click Value: 0.1 MIL
- Click Value: 0.1 MIL
- Eye Relief: 3.5"
- Finish: Black
- Focal Plane: Second
- Illumination: Yes
- Length: 9.3"
- Max Magnification: 6x
- Min. Magnification: 1x
- Model Number: Match Precision Optics
- Objective Size: 24mm
- Reticle: Donut
- Tube Size: 30mm
- Weight: 21.7 oz
- Delivery weight: 1.111kg
- Shipping height: 114mm
- Shipping width: 121mm
- Shipping length: 343mm
- UPC: 050806113626

Item details

Safety Instruction Guide for the MATCH PRECISION OPTIC (MPO) 16X24MM SFP ILLUMINATED RIFLE SCOPE

Introduction

Thank you for purchasing the Brownells 16x24 Match Precision Optic with Illuminated Donut Reticle. This guide provides important safety instructions and guidelines to ensure the safe and effective use of your rifle scope. Please read this manual carefully before using the product.

General Safety Guidelines

- Ensure that the product is used in accordance with all local laws and regulations.
- Always handle the rifle scope with care to avoid damage.
- Never look directly at the sun through the scope, as this can cause serious eye injury.
- Keep the product out of reach of children and unauthorized users.
- Regularly check the scope for any signs of damage or wear before use.
- Only use the product for its intended purpose.

Specific Safety Precautions for Use

- **Eye Protection:** Always wear appropriate eye protection when using the rifle scope.
- **Mounting:** Ensure that the scope is securely mounted to the rifle before use. Follow the manufacturer's instructions for mounting.
- **Adjustment:** Make adjustments to the scope only when the rifle is pointed in a safe direction and the safety is engaged.
- **Illumination:** When using the illuminated reticle, be mindful of the brightness settings to avoid distraction or discomfort.
- **Environmental Conditions:** Avoid using the scope in extreme weather conditions or environments that may compromise its integrity.

Instructions for Installation and Usage

Installation

1. **Select a Compatible Mount:** Choose a mount that is compatible with the 30mm main tube of the scope.
2. **Secure the Mount:** Attach the mount to the rifle according to the manufacturer's instructions.
3. **Attach the Scope:** Place the scope into the mount and tighten the screws securely without overtightening.
4. **Level the Scope:** Use the horizontal bars in the reticle to level the scope before securing it completely.

Usage

1. **Adjusting the Reticle:**
 - To illuminate the reticle, insert a CR2032 battery and select the desired brightness setting.
 - Use the click adjustments for elevation and windage, ensuring they are set to 0.1 MIL increments.
2. **Focusing:** Look through the scope and adjust the focus as needed for clarity.
3. **Target Acquisition:** Use the Donut reticle for quick target acquisition and alignment.
4. **Ranging:** Utilize the Donut reticle for ranging at 1x magnification, as originally designed.

Disposal Instructions

- Dispose of the scope and any electronic components in accordance with local regulations for electronic waste.
- Remove the battery before disposal and recycle it according to local battery recycling guidelines.

Contact Information for Further Support

For any safety inquiries or further support regarding your product, please refer to the contact information provided by the retailer or manufacturer.

By following these safety guidelines and instructions, you can ensure a safe and enjoyable experience with your MATCH PRECISION OPTIC (MPO) 16X24MM SFP ILLUMINATED RIFLE SCOPE. Thank you for your attention to safety.
