Hollow-Ground Radius Gives More Strength

BROWNELL'S FIXED-BLADE SCREWDRIVER SETS The Brownells Fixed-Blade Screwdriver Sets are meticulously designed for gunsmiths and firearm enthusiasts who require precision and durability in their tools. These screwdrivers feature parallel-ground blades that ensure maximum contact with screw slots, minimizing the risk of cam-out and damage to both the screw and firearm components.

Description and Features:

- Parallel-Ground Blades:** Each screwdriver blade is ground parallel to provide a precise fit in screw slots, enhancing torque application and reducing the likelihood of slippage.
- Hardened Steel Construction:** The blades and shanks are hardened to Rc 58-60, offering exceptional strength and durability for demanding gunsmithing tasks.
- Long Shank Design:** The long parallel shank maintains the same diameter as the width of the blade. This allows repeated regrindings and reshaping while still maintaining the original blade width. In addition, it allows the screwdriver to go into holes or recesses that are only screw-slot wide. The hex section allows you to use either an open-end wrench or one of the Midget Ratchets for more turning power on the heavier blades.
- Finally, we put a size-sequence number - from 1 (smallest) to 20 (largest) on the hex section of each individual screwdriver so you can pick the size you want quickly.
- Hexagonal Section:** A hex section on the shank permits the use of an open-end wrench or midget ratchet for additional turning power on stubborn screws.
- Ergonomic Handles:** The handles are custom-made to our specifications to fit your hand well. They aren't too bulky, yet give a mighty good grip when large, tight screws have to be broken loose, and "fingertip" control when dealing with tiny, delicate screws.

Available Sets:

- Starter Set:** Includes 10 essential screwdrivers suitable for common gunsmithing applications.
- Completer Set:** Adds 10 additional screwdrivers to the Starter Set, expanding the range of sizes and applications.
- Master Set:** Comprises all 20 screwdrivers from both the Starter and Completer Sets, along with a properly radiused Bit Shaping Stone and a bottle of Brownells Best Penetrating Oil™ for maintenance.
- Super Master Set:** Enhances the Master Set by including six Allen head fixed-blade screwdrivers, three Phillips "Anti-Cam" screwdrivers, and an additional bench block for organized storage.

Specifications: Shank Length: 2½ inches Handle Dimensions: 3¾ inches long x 1 inch diameter Material Hardness: Rc 58-60

Customer Insights: Our customers report that the Brownells Fixed-Blade Screwdriver Sets are indispensable for firearm maintenance and gunsmithing projects. The precision-fit blades and durable construction ensure reliable performance, while the ergonomic handles provide comfort during extended use. Customers appreciate the comprehensive range of sizes available in the sets, accommodating a wide array of screw types encountered in various firearms. Incorporating the Brownells Fixed-Blade Screwdriver Sets into your toolkit ensures you have the high-quality, precision tools necessary for effective and safe firearm maintenance.

NOTE: Handle styles may vary due to differing manufacturing tolerances.

Safety Instruction Guide for Brownells FixedBlade Screwdriver Sets

Introduction

Thank you for choosing the Brownells FixedBlade Screwdriver Sets. This guide provides essential safety information to ensure the safe and effective use of your screwdriver set. Please read this guide carefully before using the product.

General Safety Guidelines

- Ensure that the screwdriver set is used only for its intended purpose.
- Always inspect the screwdrivers for damage before use. Do not use damaged tools.
- Keep the screwdriver set out of reach of children and vulnerable individuals to prevent accidents.
- Use appropriate personal protective equipment (PPE) such as safety glasses when using the screwdrivers.
- Store the screwdriver set in a dry place to prevent rust and damage.
- Report any unsafe products or accidents to the relevant authorities and check for recall updates on the EU's Safety Gate platform.

Specific Safety Precautions for Use

- Always select the correct screwdriver size for the screw you are working with to avoid damage to the screw or tool.
- Apply steady pressure while turning the screwdriver to prevent slipping and potential injury.
- Do not use excessive force when turning screws; if a screw is stuck, use penetrating oil to loosen it.
- Avoid using the screwdriver for prying or as a lever, as this can cause the blade to break or slip.
- Do not modify the screwdrivers in any way, as this can compromise their safety and effectiveness.
- Ensure that your hands are dry and free from any substances that may cause slipping.

Instructions for Installation and Usage

- **Selecting the Right Screwdriver:**
 - Choose the appropriate screwdriver from the set based on the size and type of screw.
 - The screwdrivers are numbered from 1 (smallest) to 20 (largest) for easy identification.
- **Using the Screwdriver:**
 - Hold the screwdriver by the handle, ensuring a firm grip.
 - Position the blade tip into the screw slot, ensuring it fits snugly.
 - Turn the screwdriver in a clockwise direction to tighten or counterclockwise to loosen the screw.
 - Maintain control of the screwdriver throughout the process to avoid slipping.
- **After Use:**
 - Clean the screwdrivers after use to remove any debris or oil.
 - Store the screwdrivers in their designated plastic tubes to protect them from damage.

Disposal Instructions

- Dispose of any damaged screwdrivers in accordance with local regulations.
- Do not throw away the screwdriver set in regular household waste. Instead, check for local recycling programs that accept metal tools.

Contact Information for Further Support

For any safety inquiries regarding the Brownells FixedBlade Screwdriver Sets, please refer to the product packaging for relevant contact information.

By following these safety instructions, you can ensure a safe and effective experience with your Brownells FixedBlade Screwdriver Sets. Thank you for your attention to safety!
