

# STEEL ONE CALIBER SETS - STEEL ONE CALIBER SET FITS 6MM/.243 MUZZLE

[Gunsmith Tools & Supplies](#) > [Barrel Tools](#) > [Barrel Chamfering Tool Kits](#)

## **Square Up & Chamfer Rifle & Handgun Muzzles - Steel Bore Pilot**

Set includes: one, 90° facing cutter to square a muzzle after shortening, or repair damage; one, 45° chamfering cutter to break the edges of the rifling for a clean bullet exit or chamfer a revolver cylinder mouth for quick reloads; plus one handle that fits either cutter and one steel bore pilot. Interchangeable pilot keeps cutter properly aligned. Purchase extra pilots to use one cutter for many different calibers. Pilots for other calibers available separately.

Select one of the following for other rifle/handgun muzzles, cylinder facing & chamfering tools.

# Safety Instruction Guide for STEEL ONE CALIBER SETS

## Introduction

Thank you for choosing the STEEL ONE CALIBER SETS. This guide provides important safety instructions and information to ensure safe and effective use of the product. Please read this guide carefully before using the product.

## General Safety Guidelines

- Ensure that the product is used only for its intended purpose.
- Keep the product out of reach of children and vulnerable individuals.
- Inspect the product for damage before use. Do not use if any part is damaged.
- Use appropriate personal protective equipment (PPE) such as safety glasses and gloves while using the product.
- Store the product in a dry, safe place when not in use.
- Follow all local regulations and guidelines regarding the use of tools and equipment.

## Specific Safety Precautions for Use

- Always ensure that the cutter is securely attached to the handle before use.
- Use caution when handling sharp edges of the cutters to avoid cuts or injuries.
- Do not exceed the recommended diameter specifications when using the cutters.
- Avoid using the product in wet or damp conditions to prevent slipping or accidents.
- Ensure that the area is welllit and free of obstructions before starting work.
- Never place fingers or hands near the cutter while in operation.

## Instructions for Installation and Usage

### 1. Preparation

- Gather all necessary materials and tools before beginning.
- Ensure that the workspace is clean and organized.

### 2. Attaching the Cutter

- Select the appropriate cutter (facing or chamfering) based on your needs.
- Insert the cutter into the handle until it is firmly seated.
- Check that the cutter is securely attached by gently tugging on it.

### 3. Using the Cutter

- For facing: Position the muzzle against the cutter and apply steady pressure to square the muzzle.
- For chamfering: Align the cutter with the edges of the rifling or revolver cylinder mouth and apply gentle pressure to break the edges.
- Always maintain control of the tool during operation.

### 4. Using the Pilot

- Insert the steel bore pilot into the muzzle to keep the cutter aligned.
- Ensure that the pilot is properly seated before commencing work.

### 5. PostUse Care

- Clean the cutters and handle after use to remove any debris or residue.
- Store the product in its original packaging or a safe container to prevent damage.

## **Disposal Instructions**

- Dispose of the product in accordance with local waste management regulations.
- Do not dispose of the product in household waste.
- If the product is damaged or no longer usable, contact your local waste disposal service for guidance on proper disposal methods.

## **Contact Information for Further Support**

For any inquiries or concerns regarding the STEEL ONE CALIBER SETS, please refer to the manufacturer's contact information provided on the packaging or visit the manufacturer's website for more details.

## **Conclusion**

By following these safety instructions, you can ensure a safe and effective experience with the STEEL ONE CALIBER SETS. Always prioritize safety and proper usage to prevent accidents and injuries. Thank you for your attention to these guidelines.
