

STEEL ONE CALIBER SETS - STEEL ONE CALIBER SET FITS .30 MUZZLE

[Gunsmith Tools & Supplies](#) > [Barrel Tools](#) > [Barrel Chamfering Tool Kits](#)

Square Up & Chamfer Rifle & Handgun Muzzles - Steel Bore Pilot

Set includes: one, 90° facing cutter to square a muzzle after shortening, or repair damage; one, 45° chamfering cutter to break the edges of the rifling for a clean bullet exit or chamfer a revolver cylinder mouth for quick reloads; plus one handle that fits either cutter and one steel bore pilot. Interchangeable pilot keeps cutter properly aligned. Purchase extra pilots to use one cutter for many different calibers. Pilots for other calibers available separately.

Select one of the following for other rifle/handgun muzzles, cylinder facing & chamfering tools.

Safety Instruction Guide for Steel One Caliber Sets

Introduction

Thank you for purchasing the Steel One Caliber Sets. This guide provides important safety instructions and information to ensure the safe and effective use of this product. Please read this guide carefully before use.

General Safety Guidelines

To ensure your safety and the safety of others, please follow these general safety guidelines:

- Always read and understand the instructions before using the product.
- Use the product only for its intended purpose as described in this guide.
- Keep the product out of reach of children and vulnerable individuals.
- Inspect the product for damage before each use. Do not use if damaged.
- Wear appropriate personal protective equipment (PPE), such as safety glasses and gloves, when using the product.
- Store the product in a safe, dry place when not in use.
- Report any unsafe conditions or accidents to the relevant authorities.

Specific Safety Precautions for Use

When using the Steel One Caliber Sets, please observe the following safety precautions:

- Ensure that the cutter is securely attached to the handle before use.
- Always use the product in a wellventilated area to avoid inhaling any debris.
- Be cautious of sharp edges when handling the cutters.
- Do not exceed the recommended diameter specifications for the cutters.
- Avoid using excessive force when cutting or chamfering to prevent injury.
- Keep hands and fingers clear of moving parts during operation.
- Do not attempt to modify the product in any way.

Instructions for Installation and Usage

To properly install and use the Steel One Caliber Sets, please follow these steps:

1. Preparation:

- Gather all necessary tools and materials.
- Ensure the work area is clean and free of distractions.

2. Installing the Cutter:

- Select the appropriate cutter for your project (90° facing cutter or 45° chamfering cutter).
- Attach the cutter to the handle by aligning the fitting and securing it in place.

3. Using the Cutter:

- Position the muzzle or component securely in place.
- Hold the handle firmly and apply even pressure to begin cutting or chamfering.
- Rotate the cutter slowly and steadily for best results.
- Check the work frequently to ensure proper alignment and depth.

4. After Use:

- Remove the cutter from the handle and clean it thoroughly.
- Store the cutter and handle in the provided polypropylene box to prevent damage.

Disposal Instructions

When disposing of the Steel One Caliber Sets, please follow these guidelines:

- Dispose of the product in accordance with local regulations for hazardous waste.
- Do not dispose of the product in regular household waste.
- Recycle materials where possible, such as metal and plastic components.

Contact Information for Further Support

For any questions or concerns regarding the Steel One Caliber Sets, please refer to the contact information provided by the retailer or manufacturer. It is important to keep this guide for future reference.

By following these safety instructions, you can ensure a safe and effective experience with the Steel One Caliber Sets. Thank you for your attention to safety and proper usage.
