

# 1911 GOV'T MODEL MAGAZINES - ED BROWN GOV'T MAGAZINE 10MM 8RD STAINLESS

[Magazines](#) > [Handgun Magazines](#) > [Magazines](#)

## A Reliable, Robust Mag for Your "Other Caliber" 1911

For many years, the 1911 Government Model has been available in chamberings for cartridges other than its original .45 ACP, including .38 Super, 9mm Luger, and the potent 10mm Auto. The folks at the Ed Brown shop figure that just because your 1911 is chambered in one of these alternate cartridges shouldn't mean you have to sacrifice magazine reliability. Like Ed Brown's .45 magazines, their alternate caliber 1911 mags have a virtually seamless body of heat-treated stainless steel, with a self-levelling STEEL - not plastic! - follower supported by a heavy duty spring with plenty of oomph to keep the round stack moving. These 1911 Government Model magazines have a welded-on steel baseplate to minimize bulk for situations where you want to keep thing compact. Each mag comes with a pair of screw-on rubber base pads - a thin pad to protect that mag when ejecting it on hard ground, and a thick pad to provide extra length to aid insertion into and removal from a pistol with an extended magwell. These mags can go from competition to concealed carry simply by swapping the base pads. Models for pistols chambered in .38 Super, 9mm Luger, and 10mm Auto 9-Rd capacity Sturdy 410 stainless steel body / welded-on base plate Available with natural Silver finish or Black Nitride Witness holes for easy monitoring of load status The Ed Brown shop's unique hydro-finish process gives the mag body and follower an extra-slick surface that repels dirt, dust, and burned powder to eliminate unnecessary friction against the follower to ensure consistent feeding and easy seating in the magwell. You can get these 1911 Government Model magazines with a natural Silver finish or a non-reflective Black Nitride finish for extra protection from and corrosion. If you're looking for a premium-quality magazine engineered and manufactured to the highest standards to deliver outstanding reliability and smoothness from your "other caliber" 1911 Government model... you've found it!

## Attributes

# Safety Instruction Guide for Ed Brown 1911 Government Model Magazines

## Introduction

Thank you for choosing the Ed Brown 1911 Government Model Magazines. This guide provides essential safety instructions to ensure safe and effective use of your magazine. Please read this guide carefully before use to understand how to maximize safety and performance.

## General Safety Guidelines

- Ensure that all users are familiar with the operation of the firearm and magazine.
- Always handle firearms and magazines with care, treating them as if they are loaded.
- Keep firearms and magazines out of reach of children and unauthorized individuals.
- Regularly inspect magazines for any signs of damage or wear.
- Do not use magazines that show signs of damage or malfunction.
- Follow all local laws and regulations regarding the use and storage of firearms and magazines.

## Specific Safety Precautions for Use

- Before loading, ensure that the firearm is pointed in a safe direction and that the safety is engaged.
- Only use ammunition that is compatible with the magazine's specifications (10mm Auto).
- Avoid overloading the magazine beyond its stated capacity (8 rounds).
- Ensure that the magazine is properly seated in the firearm before attempting to fire.
- Use the rubber base pads provided to enhance grip during magazine changes, especially in competitive environments.
- Do not attempt to disassemble the magazine unless you are familiar with the proper procedures.

## Instructions for Installation and Usage

### Installation

1. **Check the Firearm:** Ensure that the firearm is unloaded and pointed in a safe direction.
2. **Insert the Magazine:** Align the magazine with the magazine well of the firearm and push it firmly until it clicks into place.
3. **Check for Proper Seating:** Ensure that the magazine is fully seated and secure.

### Usage

1. **Loading the Magazine:**
  - Use only compatible 10mm Auto ammunition.
  - Insert rounds one at a time, ensuring they are properly aligned.
  - Do not exceed the magazine capacity of 8 rounds.
2. **Firing:**
  - After loading, ensure that the firearm's safety is disengaged.
  - Aim at your target and pull the trigger while maintaining control of the firearm.
3. **Unloading:**
  - After firing, point the firearm in a safe direction.
  - Engage the safety and remove the magazine by pressing the magazine release button.

- Eject any remaining rounds from the chamber.

## **Disposal Instructions**

- Dispose of used magazines in accordance with local regulations.
- Do not throw magazines in regular trash. Check for recycling options or hazardous waste disposal sites.
- Ensure that all ammunition is removed before disposal.

## **Contact Information for Further Support**

For any questions or concerns regarding the Ed Brown 1911 Government Model Magazines, please refer to the manufacturer's website or contact your local retailer. Always ensure you have the latest information regarding product safety and compliance.

## **Conclusion**

Your safety is our priority. By following these guidelines, you can ensure a safe and enjoyable experience with your Ed Brown 1911 Government Model Magazines. Always stay informed and practice safe handling procedures. Thank you for your attention to these important safety instructions.
