

LASER BORESIGHTER - SIGHTMARK 308 WINCHESTER BORESIGHTER

[Gunsmith Tools & Supplies](#) > [Sight & Scope Installation Tools](#) > [Laser Boresighters](#)

Chamber-Mounted Laser Helps You Sight In Rifle Or Pistol Without Firing A Shot

Easy-to-use, self-contained boresighting system fits in the chamber of your rifle or pistol and projects a powerful red laser beam aligned with the bore axis for sighting to the point-of-aim without firing a shot. Works with scopes, holographic red dot sights, and "iron" sights. Durable, machined brass housing looks like a cartridge case but actually contains the entire laser system and batteries. Insert the batteries and screw the cap on the housing to turn on the laser; remove the batteries to turn off. Insert the entire assembly into the chamber, gently close the action, and aim at a target 20-30 yards away. Adjust windage and elevation of the scope or sights so point-of-aim is zeroed on the dot, compensating for sight offset to prevent gun from shooting high. Go to the range for test shots and final sight adjustments. Store boresighter in the included nylon carrying case that fits easily in a pocket, tool kit, or range bag. Available in a variety of calibers, listed below.

Attributes

- Name: [SIGHTMARK 308 WINCHESTER BORESIGHTER](#)
- Manufacturer: [SIGHTMARK](#)
- Product no.: 100004015
- Mfr. No.: SM39005

Safety Instruction Guide for LASER BORESIGHTER SIGHTMARK 308 WINCHESTER BORESIGHTER

Introduction

Thank you for choosing the LASER BORESIGHTER SIGHTMARK 308 WINCHESTER BORESIGHTER. This guide provides essential safety instructions and usage information to ensure your product is used safely and effectively. Please read this guide carefully before use.

General Safety Guidelines

- Ensure that the boresighter is used only by individuals who are familiar with firearms and their operation.
- Always treat the boresighter as if it were a loaded firearm.
- Keep the boresighter out of reach of children and unauthorized users.
- Use the boresighter in a safe environment, away from flammable materials and in a controlled setting.
- Regularly inspect the boresighter for any signs of damage or wear before use.
- If you experience any malfunction or issue with the boresighter, discontinue use immediately and seek assistance.

Specific Safety Precautions for Use

- **Avoid Direct Eye Exposure:** Do not look directly into the laser beam. The laser can cause eye injury.
- **Check Compatibility:** Ensure that the boresighter is compatible with your firearm's caliber before use.
- **Use in a Controlled Area:** Always use the boresighter in a designated shooting range or safe area to avoid accidents.
- **Secure the Firearm:** Ensure that the firearm is secured and pointed in a safe direction when inserting the boresighter.
- **Remove Batteries When Not in Use:** To prevent accidental activation, remove the batteries from the boresighter when it is not in use.
- **Follow Local Laws:** Be aware of and comply with all local laws and regulations regarding the use of laser devices and firearms.

Instructions for Installation and Usage

1. Insert Batteries:

- Open the cap of the boresighter housing.
- Insert the included AG5 button cell batteries according to the polarity indicated.
- Securely screw the cap back on to activate the laser.

2. Insert into Chamber:

- Ensure the firearm is unloaded and pointed in a safe direction.
- Gently insert the boresighter into the chamber of the firearm.
- Close the action of the firearm carefully.

3. Aim at Target:

- Aim the firearm at a target located 2030 yards away.
- Observe the dot created by the laser on the target.

4. Adjust Sights:

- Adjust the windage and elevation settings of your scope or sights until the pointofaim aligns with the laser dot.
- Make compensations for sight offset to ensure accurate shooting.

5. Test Shots:

- After adjustments, proceed to the shooting range to conduct test shots.
- Make any necessary final adjustments based on test shot results.

6. Storage:

- After use, store the boresighter in the included nylon carrying case.
- Ensure the case is kept in a cool, dry place to prevent damage.

Disposal Instructions

- Dispose of the boresighter and batteries in accordance with local regulations.
- Do not dispose of batteries in regular household waste; instead, use designated battery recycling facilities.
- If the boresighter is damaged or no longer in use, consider returning it to the manufacturer or a recycling center that accepts electronic waste.
