

3 PACK - SLIP 2000 GUN CLEANER/DEGREASER 3 PACK

[Gun Cleaning & Chemicals](#) > [Oils & Lubricants](#) > [Lubricant & Protectant Oils](#)

SLIP 2000 3-Pack contains 2 fl. oz. bottles of 725 Gun Cleaner/ Degreaser, Carbon Killer, and Gun Lube. 725 Gun Cleaner/Degreaser is a water-based solvent that strips grease, oil, Cosmoline, carbon, and grime from gun parts. Safe for aluminum, carbon steel, and stainless, and won't harm plastic, bluing, sealed wood, or rubber. Use in parts washers, ultra sonic cleaners (check with manufacturer) or apply by hand. Lubricate exposed metal after use. Carbon Killer dissolves burnt-on carbon and flushes away powder residue. Soak the item to be cleaned in Carbon Killer for 5 to 15 minutes to loosen tough carbon fouling on bolts, cylinder faces, actions, muzzle brakes, and other hard-to-reach areas. Then simply wipe, brush, or rinse the part clean. Use for bore cleaning to remove carbon, lead, and plastic wad fouling. Carbon Killer is reusable; if stored properly, it can maintain its strength through multiple cleaning sessions. No hazardous chemicals, nonflammable, and biodegradable. Gun Lube keeps your gun running in extreme conditions. Won't become sticky or slow down at cold temperatures and doesn't freeze, even at -110°F. Heat has no effect, because Gun Lube doesn't evaporate and won't burn off up to +1,250°F. Won't attract dirt, dust, or sand, either, and it displaces moisture. Gun Lube penetrates into the micro-pores of the metal to create a bonded surface that resists carbon, copper, lead, plastic and other fouling for easy cleaning. Contains no petroleum distillates or oil.

Safety Instruction Guide for SLiP 2000 3Pack Gun Cleaner/Degreaser

Introduction

Thank you for choosing the SLiP 2000 3Pack, which includes 725 Gun Cleaner/Degreaser, Carbon Killer, and Gun Lube. This guide provides essential safety instructions to ensure safe and effective use of these products in compliance with the EU General Product Safety Regulation (GPSR). Please read this guide carefully before using the products.

General Safety Guidelines

- Ensure that all products are used in a wellventilated area to avoid inhalation of fumes.
- Keep all products out of reach of children and pets.
- Always wear appropriate personal protective equipment (PPE), such as gloves and goggles, when handling these products.
- Do not mix with other chemicals unless specified in the instructions.
- Store products in their original containers, tightly sealed, and in a cool, dry place away from direct sunlight and heat sources.
- Dispose of any unused products according to local regulations to prevent environmental harm.

Specific Safety Precautions for Use

725 Gun Cleaner/Degreaser

- Avoid contact with skin and eyes. In case of contact, rinse thoroughly with water.
- Do not ingest. If swallowed, seek medical attention immediately.
- Use only as directed. Do not use on surfaces not specified for cleaning.
- Test a small area before applying to sensitive surfaces.

Carbon Killer

- Handle with care; it is designed to dissolve tough carbon fouling.
- Soak items for no longer than 15 minutes to prevent damage.
- Ensure that Carbon Killer does not come into contact with rubber or plastic parts unless specified.
- Use appropriate containers that are resistant to solvents for soaking.

Gun Lube

- Apply only a small amount to avoid attracting dust and dirt.
- Ensure that the product does not freeze during storage or use.
- Avoid using Gun Lube near open flames or high heat sources.
- Store Gun Lube in a cool, dry place to maintain effectiveness.

Instructions for Installation and Usage

725 Gun Cleaner/Degreaser

1. Shake the bottle well before use.
2. Apply the cleaner directly onto the surface or part to be cleaned.
3. Allow it to sit for a few minutes, then scrub or wipe with a clean cloth.
4. Rinse with water and dry thoroughly.
5. Lubricate exposed metal surfaces after cleaning.

Carbon Killer

1. Pour Carbon Killer into a suitable container.
2. Submerge the item to be cleaned in the solution.
3. Allow the item to soak for 5 to 15 minutes, depending on the level of fouling.
4. Remove the item and wipe, brush, or rinse it clean.
5. Store Carbon Killer in a sealed container for reuse.

Gun Lube

1. Clean the surface to be lubricated before application.
2. Apply a small amount of Gun Lube to the exposed metal parts.
3. Allow it to penetrate into the micropores of the metal.
4. Wipe off any excess product.

Disposal Instructions

- Dispose of empty containers and unused products in accordance with local waste disposal regulations.
- Do not pour any of these products down the drain or into the environment.
- Check for specific disposal guidelines provided by local authorities.

Contact Information for Further Support

For safety inquiries or further assistance regarding the SLiP 2000 3Pack, please refer to the manufacturer's website or contact your local distributor. Always keep the product packaging for reference.

By following these guidelines, you can ensure safe and effective use of the SLiP 2000 3Pack products. Stay informed about any updates or recalls through the EU's Safety Gate platform. Thank you for prioritizing safety while using these products.
