Pistol Thread Protectors Safety Instructions

Introduction

Thank you for choosing the Pistol Thread Protectors by Yankee Hill Machine Co., Inc. These protectors are designed to safeguard the threads on your pistol barrel when a muzzle device is not installed. This guide provides essential safety instructions to ensure safe usage and maintenance of the product.

General Safety Guidelines

- Always inspect the thread protector before use for any signs of damage or wear.
- Ensure that the thread protector is compatible with your firearm's barrel threads.
- Store the thread protector in a safe and dry place when not in use.
- Keep the product out of reach of children and vulnerable individuals.
- Report any unsafe products or accidents to the relevant authorities immediately.
- Stay updated on recall notices through the EU's Safety Gate platform.

Specific Safety Precautions for Use

- **Thread Compatibility:** Ensure that the thread protector matches the thread size of your pistol barrel. Available sizes include:
 - 1/2"28, with a .570 OD
 - 9/16"24, with a .633 OD
 - .578"28, with a .650 OD
- **Installation:** Avoid crossthreading when installing the protector to prevent damage to both the protector and the barrel.
- **Removal:** Use the knurled exterior to grip and remove the protector easily. Do not use excessive force, which may cause damage.
- **Muzzle Device Switching:** Always install the thread protector when not using a muzzle device to prevent thread damage.
- **Inspection After Use:** Periodically check the thread protector for any signs of wear or damage, especially after switching muzzle devices.

Instructions for Installation and Usage

1. Preparation:

- Ensure your firearm is unloaded and pointed in a safe direction.
- Gather the necessary tools, if needed, for installation.

2. Installation:

- Align the thread protector with the barrel threads.
- Gently screw the protector onto the barrel by hand, ensuring it threads smoothly.
- Do not force the protector; if it does not thread easily, remove it and check for debris or misalignment.
- Tighten the protector until it is snug; do not overtighten.

3. Usage:

- Use the thread protector whenever a muzzle device is not attached to your pistol.
- If switching between muzzle devices, ensure the protector is securely installed during the process.

4. Removal:

- Grip the knurled exterior firmly.
- Turn counterclockwise to remove the protector from the barrel.
- Inspect the threads on both the protector and the barrel after removal for any damage.

Disposal Instructions

- Dispose of the product in accordance with local regulations.
- If the thread protector is damaged or no longer needed, consider recycling it if possible.
- Do not dispose of the product in regular household waste if it contains hazardous materials.

Contact Information for Further Support

For any inquiries related to safety, installation, or product issues, please refer to the manufacturer's contact information available on their official website or product packaging.

By following these safety instructions, you can ensure the safe and effective use of your Pistol Thread Protectors. Thank you for prioritizing safety and compliance with EU General Product Safety Regulations.
