Safety Instruction Guide for RCBS Electronic Caliper 6" Stainless Steel

Introduction

Thank you for choosing the RCBS Electronic Caliper 6" Stainless Steel. This precision tool is designed for accurate measurements and ease of use. To ensure your safety and the safety of others, please read this guide carefully before using the product.

General Safety Guidelines

- Always handle the caliper with care to avoid damage or injury.
- Ensure the caliper is used in accordance with the manufacturer's instructions.
- Keep the caliper out of reach of children and vulnerable individuals.
- Regularly check the tool for any signs of wear or damage before use.
- Do not use the caliper in wet or humid environments to prevent electrical or mechanical failure.
- Report any unsafe conditions or incidents to the appropriate authorities.

Specific Safety Precautions for Use

- Avoid applying excessive force when measuring to prevent damage to the caliper.
- Do not use the caliper for measuring live electrical wires or in hazardous environments.
- Ensure that the display is functioning correctly before taking measurements.
- Use the lock feature to hold the slide in position when measuring constants.
- Always return the caliper to zero before taking measurements to ensure accuracy.
- If the low battery indicator appears, replace the battery immediately to maintain proper function.

Instructions for Installation and Usage

1. Unboxing the Caliper

- Remove the caliper from its plastic storage case.
- Ensure all components are included and undamaged.

2. Powering On the Caliper

- Locate the power switch and turn the caliper on.
- Check the display for any error messages.

3. Switching Between Units

- Press the button to switch between inches and millimeters as needed.

4. Taking Measurements

- Open the jaws of the caliper to the desired measurement point.
- Close the jaws gently around the object being measured (internal, external, depth, or step dimensions).
- Read the measurement from the display.

5. Locking Measurements

- Use the lock feature to hold the measurement in place for easy reading.

6. Resetting the Caliper

- To reset to zero, close the jaws and press the zero button.

7. Powering Off

- Turn off the caliper when not in use to conserve battery life.

Disposal Instructions

- Dispose of the caliper and its components in accordance with local regulations.
- Do not dispose of batteries in regular waste. Follow local guidelines for battery disposal and recycling.

Contact Information for Further Support

For any safety inquiries or concerns regarding the RCBS Electronic Caliper, please refer to the manufacturer's contact information provided in the product packaging or visit the official website.

Thank you for your attention to these safety instructions. Enjoy using your RCBS Electronic Caliper!
