# BULLET BIN BARRIERS Safety Instruction Guide

## Introduction

Thank you for choosing the Bullet Bin Barriers by Inline Fabrication. These barriers are designed to extend the capacity of your bins, providing you with additional storage for components. This guide outlines essential safety instructions and best practices to ensure safe and effective use of the product in compliance with the EU General Product Safety Regulation (GPSR).

## General Safety Guidelines

- Always read and understand the safety instructions before using the product.
- Ensure that the product is used only for its intended purpose.
- Keep the product out of reach of children and vulnerable individuals.
- Regularly inspect the product for any signs of damage or wear.
- Report any unsafe conditions or incidents to the appropriate authorities.
- Check for product recall updates on the EU Safety Gate platform.

## Specific Safety Precautions for Use

### • Potential Hazards:

- Sharp edges: The aluminum material may have sharp edges that can cause cuts or injuries.
- Weight: Ensure that the barriers are securely placed to prevent tipping or falling.

### • Avoiding Hazards:

- Handle the barriers carefully to avoid cuts from sharp edges.
- Ensure that the barriers are installed securely and are stable before loading them with components.
- Do not overload the barriers beyond their designed capacity.

### • Age Specific Warnings:

- This product is not suitable for children. Keep away from minors to prevent accidents.

## Instructions for Installation and Usage

### 1. Installation:

- Begin by selecting a suitable bin for the installation of the Bullet Bin Barriers.
- Ensure that the bin is clean and free of any debris or obstructions.
- Align the barriers with the edges of the bin, ensuring a snug fit.
- Press down firmly to secure the barriers in place. Ensure that they are stable and do not wobble.

### 2. Usage:

- Load components into the bin carefully, ensuring that they are evenly distributed.
- Do not exceed the weight limit specified for the barriers. Refer to the product specifications for details.
- Regularly check the stability of the barriers during use, especially if components are added or removed frequently.

## **Disposal Instructions**

- Dispose of the Bullet Bin Barriers in accordance with local regulations for aluminum recycling.
- Do not dispose of the product in regular waste bins.
- If the product is damaged or no longer usable, ensure it is recycled responsibly.

## **Contact Information for Further Support**

For any questions or concerns regarding the Bullet Bin Barriers, please consult the product packaging or visit the manufacturer's website for additional support and information.

Thank you for prioritizing safety and for choosing Inline Fabrication's Bullet Bin Barriers. Your careful attention to these guidelines will help ensure a safe and effective experience.
