

5700 ELITE METER WITH APPLIED BALLISTICS & LINK - KESTREL

5700 ELITE WITH APPLIED BALLISTICS & LINK, TAN

[Shooting Accessories](#) > [Windmeters & Flags](#) > [Windmeters](#)

A Whole Lot of Ballistic Computing Power - in the Palm of Your Hand

Kestrel's 5700 Elite Weather Meter with Applied Ballistics software is an upgrade of Kestrel's path-breaking but now-discontinued 4500 meter optimized specifically for the needs of long-range target shooters. The 5700 Elite measures up to 15 environmental parameters and lets you select either G1 or G7 ballistic coefficients (BC) when calculating bullet trajectory. It fits in the palm of your hand, yet offers the "Litz" (as in, noted ballisticians Bryan Litz) measured BC library of over 225 bullets - the most extensive source of measured data for modern small arms bullets. Using its ballistics calibration feature, you can "train" your Kestrel 5700 Elite weather meter's Applied Ballistics software to match a specific rifle based on observed long-range impacts. The result is an even more accurate set of data points you can rely on in future calculations. With such easy access to highly accurate BC data, you've got everything you need to make a pin-point precise trajectory calculation - in a hand-held wind meter. More of the Kestrel 5700 Elite's many features: Bluetooth LiNK to your Android or iOS smartphone Easy-to-use, intuitive user-interface screen navigation Improved screen resolution over earlier models - easier to see in varying light Screen switchable between white & red (NV - night vision) backlight Runs on one (1) AA battery Sealed battery compartment, so a battery leak will not fry your Kestrel's motherboard Multiple languages: English, French, German & Spanish Reinforced molded hard polymer shell & scratch/breakage-resistant viewing window Wait - it gets better! The Kestrel 5700 Elite Weather Meter comes with integrated Bluetooth technology, so both your real-time environmental and logged data can be transferred wirelessly and automatically to your smartphone, Mac, or PC. Yes, it's Android AND iPhone compatible, so whatever phone OS has your allegiance, the 5700 is ready to play nice with it. It will also connect via LiNK to a Bushnell CONX Rangefinder, enabling you to view results from the AB Kestrel right on your rangefinder. If you want to squeeze every last drop of performance from your rifle and your ammo, make sure you have a Kestrel 5700 Elite with Applied Ballistics software with you the next time you hit the range.

Attributes

- Name: [KESTREL 5700 ELITE WITH APPLIED BALLISTICS & LINK, TAN](#)
- Manufacturer: [KESTREL](#)
- Product no.: 100027980
- Mfr. No.: 0857ALTAN
- Colour: Tan
- Delivery weight: 0.234kg
- Shipping height: 32mm
- Shipping width: 159mm
- Shipping length: 159mm

Kestrel 5700 Elite Weather Meter Safety Instruction Guide

Introduction

Thank you for choosing the Kestrel 5700 Elite Weather Meter with Applied Ballistics & Link. This device is designed to provide accurate environmental measurements and ballistic calculations for longrange shooting. To ensure safe and effective use of your Kestrel 5700 Elite, please read and follow these safety instructions carefully.

General Safety Guidelines

- Ensure that the Kestrel 5700 Elite is used in accordance with the manufacturer's instructions to avoid potential hazards.
- Regularly check for updates or recalls regarding the product through the EU Safety Gate platform.
- Keep the device away from children and ensure it is used only by individuals who understand its functionality and safety precautions.
- If you notice any damage or malfunction, discontinue use immediately and seek assistance.
- Dispose of the product responsibly, following local regulations for electronic waste.

Specific Safety Precautions for Use

- **Battery Safety:**
 - Use only one (1) AA battery as specified.
 - Do not mix old and new batteries or different types of batteries.
 - Ensure the battery compartment is sealed properly to prevent leaks.
- **Environmental Conditions:**
 - Avoid exposing the device to extreme temperatures, moisture, or direct sunlight for prolonged periods.
 - Do not use the device in hazardous environments where it may be exposed to chemicals or corrosive substances.
- **Screen Care:**
 - Handle the device carefully to prevent scratches or breakage of the viewing window.
 - Clean the screen with a soft, dry cloth. Do not use abrasive materials or solvents.
- **Bluetooth Connectivity:**
 - Ensure that your smartphone or device is compatible with the Kestrel 5700 Elite before attempting to connect.
 - Always follow the manufacturer's instructions for Bluetooth pairing and data transfer.

Instructions for Installation and Usage

- **Initial Setup:**
 - Insert one (1) AA battery into the battery compartment, ensuring correct polarity.
 - Turn on the device using the power button and follow onscreen prompts for initial setup.

- **Using the Device:**

- Navigate through the user interface using the intuitive screen navigation.
- Select either G1 or G7 ballistic coefficients as needed for your calculations.
- Use the ballistics calibration feature to match the device to your specific rifle based on observed impacts.

- **Data Transfer:**

- To transfer data, ensure Bluetooth is enabled on your smartphone.
- Follow the prompts on the Kestrel 5700 Elite to connect to your smartphone or other devices.

- **Switching Display Modes:**

- Use the screen switch feature to toggle between white and red backlight for optimal visibility in different lighting conditions.

Disposal Instructions

- Dispose of the Kestrel 5700 Elite in accordance with local regulations for electronic waste.
- Remove the battery before disposal to prevent environmental contamination.
- Do not throw the device in household waste; use designated recycling facilities.

Contact Information for Further Support

For further assistance, please refer to the manufacturer's website or user manual for contact information and support resources.

By following these safety instructions, you can ensure a safe and effective experience with your Kestrel 5700 Elite Weather Meter. Thank you for your attention to these important guidelines. Enjoy your shooting experience!
