RCBS Brass Boss Case Prep Unit Safety Instructions

Introduction

Thank you for choosing the RCBS Brass Boss Case Prep Unit. This product is designed to make cleaning and prepping your reloading brass faster and more efficient. To ensure safe and effective use of this equipment, please follow the safety instructions outlined in this guide.

General Safety Guidelines

- Always read and understand the user manual before operating the unit.
- Keep the unit out of reach of children and vulnerable individuals.
- Ensure that the workspace is clean, dry, and welllit.
- Use personal protective equipment (PPE) such as safety glasses and gloves while operating the unit.
- Do not operate the unit if it is damaged or malfunctioning.
- Ensure that the power supply is compatible with the unit's requirements (120/240 VAC).
- Regularly inspect the unit and its components for wear and tear.

Specific Safety Precautions for Use

• Electrical Safety:

- Do not use the unit with damaged power cords or plugs.
- Avoid using the unit in wet or damp conditions.
- Ensure that the power outlet is grounded.

• Operational Safety:

- Always secure the brass in the designated holder before starting the unit.
- Do not place hands or fingers near moving parts while the unit is in operation.
- Allow the unit to come to a complete stop before changing tools or making adjustments.

• Tool Safety:

- Use only the tools provided with the unit.
- Regularly check the condition of the deburring tool, primer/pocket cleaner, and other accessories.
- Replace worn or damaged tools immediately.

• Storage Safety:

- Store the unit in a dry and secure location when not in use.
- Ensure that all tools are returned to their designated storage spots.

Instructions for Installation and Usage

1. Installation:

- Unpack the RCBS Brass Boss Case Prep Unit and check for all included components.
- Place the unit on a stable and flat surface.
- Connect the power cord to the appropriate power outlet (ensure voltage compatibility).

2. Usage:

- Select the desired rotating station based on the task (deburring, cleaning, etc.).
- Adjust the speed setting according to the task requirements (350550 rpm).
- Insert the brass into the designated holder securely.
- Press the start button to activate the unit.
- Monitor the operation and ensure that the brass is processed correctly.
- Once completed, turn off the unit and allow it to cool down before handling.

Disposal Instructions

- Dispose of the unit and its components in accordance with local regulations.
- Do not dispose of electrical components in regular household waste.
- Check for local recycling programs for electronic waste.

Contact Information for Further Support

For any safety inquiries or concerns regarding the RCBS Brass Boss Case Prep Unit, please contact the manufacturer or your local distributor. Always ensure that you have the product information available when seeking assistance.

By following these safety instructions, you can ensure the safe and effective use of the RCBS Brass Boss Case Prep Unit. Thank you for prioritizing safety in your reloading activities.
