

R.E.A.L. BULLET & COMBO MOLDS - LEE PRECISION 54 CALIBER 300GR REAL, 0.542" ROUND BALL MOLD

[Reloading](#) > [Bullet Casting](#) > [Casting Moulds](#) > [Muzzleloading Moulds](#)

The Lee Combo moulds cast one REAL bullet and one round ball bullet. The REAL bullet features driving bands that are large enough to adequately engage the rifling when pushed in to the muzzle, yet thin enough to withstand maximum charges without stripping or gas cutting.

Attributes

Safety Instruction Guide for R.E.A.L. BULLET & COMBO MOLDS LEE PRECISION 54 CALIBER 300GR REAL, 0.542" ROUND BALL MOLD

Introduction

Thank you for choosing the R.E.A.L. Bullet & Combo Molds by Lee Precision. This guide provides essential safety instructions and precautions to ensure safe usage of the product. Please read this document carefully before using the molds to minimize risks and enhance your experience.

General Safety Guidelines

- Always follow local laws and regulations regarding the use of firearms and ammunition.
- Ensure that you are of legal age to purchase and use this product.
- Store the molds in a cool, dry place away from children and pets.
- Regularly inspect the molds for any signs of wear or damage before use.
- Use the molds only for their intended purpose; do not modify them in any way.
- Always wear appropriate safety gear, including eye protection, when casting bullets.

Specific Safety Precautions for Use

- Handle molten lead with extreme caution to avoid burns and injuries.
- Ensure proper ventilation when casting bullets to avoid inhalation of fumes.
- Use a proper lead melting pot designed for bullet casting; do not use makeshift devices.
- Keep a fire extinguisher nearby when working with molten lead.
- Do not eat, drink, or smoke while handling lead to prevent ingestion.
- Wash your hands thoroughly after handling lead or using the molds.

Instructions for Installation and Usage

1. Preparation

- Gather all necessary materials: lead, melting pot, and safety equipment.
- Ensure your workspace is clean and organized.

2. Melting Lead

- Place lead in the melting pot and heat it to the appropriate temperature.
- Monitor the lead closely to avoid overheating.

3. Using the Molds

- Once the lead is melted, carefully pour the lead into the mold cavities.
- Allow the lead to cool and solidify before removing the bullets from the molds.
- Use caution when opening the molds to avoid injury from sharp edges.

4. PostUse Care

- Clean the molds with a suitable solvent to remove any lead residue.
- Store the molds properly to prevent damage.

Disposal Instructions

- Dispose of any lead scraps or waste according to local regulations.
- Do not dispose of lead in regular trash; contact local waste management for proper disposal methods.
- Ensure that all materials are stored safely to prevent environmental contamination.

Contact Information for Further Support

For any safety inquiries or concerns regarding the R.E.A.L. Bullet & Combo Molds, please reach out to the designated EU contact point provided with your product packaging.

Conclusion

By following these safety instructions, you can ensure a safe and enjoyable experience while using the R.E.A.L. Bullet & Combo Molds by Lee Precision. Always prioritize safety and stay informed about best practices in bullet casting. Thank you for your attention to these important guidelines.
