

# R.E.A.L. BULLET & COMBO MOLDS - LEE PRECISION 54 CALIBER 380GR REAL, 0.542" ROUND BALL MOLD

[Reloading](#) > [Bullet Casting](#) > [Casting Moulds](#) > [Muzzleloading Moulds](#)

The Lee Combo moulds cast one REAL bullet and one round ball bullet. The REAL bullet features driving bands that are large enough to adequately engage the rifling when pushed in to the muzzle, yet thin enough to withstand maximum charges without stripping or gas cutting.

## Attributes

- Name: [LEE PRECISION 54 CALIBER 380GR REAL, 0.542" ROUND BALL MOLD](#)
- Manufacturer: [LEE PRECISION](#)
- Product no.: 100032190
- Mfr. No.: 90400
- Delivery weight: 0.408kg
- Shipping height: 51mm
- Shipping width: 76mm
- Shipping length: 279mm
- UPC: 734307904005

# **Safety Instructions for R.E.A.L. BULLET & COMBO MOLDS LEE PRECISION 54 CALIBER 380GR REAL, 0.542" ROUND BALL MOLD**

## **Introduction**

Thank you for choosing the R.E.A.L. BULLET & COMBO MOLDS by LEE PRECISION. This product is designed for safe and effective casting of bullets and round balls. To ensure your safety and the safety of others, please read and follow these safety instructions carefully.

## **General Safety Guidelines**

- Ensure the product is used only for its intended purpose.
- Always wear appropriate personal protective equipment (PPE), including safety glasses and gloves, when handling molds and molten lead.
- Keep the workspace clean and free of hazards to prevent accidents.
- Be aware of your surroundings and ensure that children and pets are kept at a safe distance during use.
- If you experience any discomfort or adverse effects while using this product, stop immediately and seek assistance.

## **Specific Safety Precautions for Use**

### **• Handling Molten Lead:**

- Always use a lead melting pot designed for this purpose.
- Never leave molten lead unattended.
- Use caution when pouring lead into the mold to avoid spills and splashes.

### **• Mold Maintenance:**

- Inspect the mold for any damage before each use.
- Clean the mold thoroughly after each use to prevent contamination and ensure proper function.

### **• Storage:**

- Store the mold in a dry, cool place away from direct sunlight and moisture.
- Ensure that the mold is completely cooled before storing.

## **Instructions for Installation and Usage**

### **1. Setting Up the Mold:**

- Place the mold on a stable, heatresistant surface.
- Ensure that the mold is securely closed before pouring molten lead.

### **2. Melting Lead:**

- Use a lead melting pot to heat the lead to the appropriate temperature (approximately 660°F / 350°C).
- Follow the manufacturer's instructions for operating the melting pot.

### **3. Pouring Lead into the Mold:**

- Carefully pour molten lead into the sprue hole of the mold, ensuring that it fills all cavities.
- Avoid overfilling to prevent lead from spilling out.

### **4. Cooling and Removing Bullets:**

- Allow the lead to cool and solidify in the mold for the recommended time.
- Once cooled, carefully open the mold and remove the cast bullets.

### **5. PostUse Cleaning:**

- Clean the mold with a soft brush or cloth to remove any residual lead.
- Store the mold in a safe place for future use.

## **Disposal Instructions**

- Dispose of any scrap lead or leftover materials in accordance with local regulations.
- Do not dispose of lead in regular household waste.
- Check with local recycling centers for proper lead disposal options.

## **Contact Information for Further Support**

For any inquiries or concerns regarding the safety and use of this product, please refer to the manufacturer's contact information provided with your purchase.

## **Conclusion**

By following these safety instructions, you can ensure a safe and enjoyable experience while using the R.E.A.L. BULLET & COMBO MOLDS. Always prioritize safety and stay informed about best practices for handling and using casting equipment. Thank you for your attention to safety.
