Safety Instructions

Introduction

Thank you for choosing the MOLD MALLET LEE PRECISION MOLD MALLET. This guide provides essential safety instructions to ensure safe and effective use of the product. Please read this manual carefully before use to understand the safety precautions and proper handling of the mallet.

General Safety Guidelines

- Always inspect the mallet before use. Check for any visible damage or defects.
- Use the mallet only for its intended purpose: to release bullets from mold cavities.
- Keep the mallet out of reach of children and vulnerable individuals.
- Ensure that your work area is clean and free from hazards before using the mallet.
- Wear appropriate personal protective equipment (PPE), including safety glasses and gloves, when casting.

Specific Safety Precautions for Use

- Do not use the mallet on surfaces that may cause splintering or damage.
- Avoid striking the mallet with excessive force, which may lead to accidents or injury.
- Always position your hands and fingers away from the striking area to prevent injury.
- Do not use the mallet if you are tired or under the influence of substances that may impair judgment.
- If the mallet becomes damaged or shows signs of wear, discontinue use immediately.

Instructions for Installation and Usage

1. Preparation:

- Ensure that the casting mold is securely in place and stable.
- Gather all necessary materials and tools before beginning your work.

2. Using the Mallet:

- Hold the mallet firmly by the handle.
- Position the mallet directly above the mold cavity.
- Strike the mold gently to release the bullet. Adjust the force as necessary based on the resistance encountered.
- After use, clean the mallet to remove any debris or residue.

3. PostUse Care:

- Store the mallet in a dry place, away from direct sunlight and extreme temperatures.
- Regularly check the mallet for any signs of wear or damage.

Disposal Instructions

- Dispose of the mallet in accordance with local regulations.
- If the mallet is no longer usable, consider recycling the wood if possible.
