Get Near Target Pistol Performance from Your Compact Carry SIG

Just because the SIG P365 is a compact carry pistol, doesn't mean you can't get excellent accuracy from it. Drop in a True Precision Match-Grade Threaded Barrel, and see what a superb shooter this popular EDC pistol can be. Like all True Precision barrels, the match-grade tube for the P365 is machined from certified U.S.-sourced 416R stainless steel. It gets precise broach-cut 6-groove rifling inside to ensure it delivers maximum accuracy potential, consistency, and reliability. It's lead bullet safe, too! This version of the True Precision SIG P365 match-grade barrel has $\frac{1}{2}$ "-28 tpi muzzle threads to accept a compensator or sound suppressor, and it comes with a protective muzzle cap with a Viton heat-resistant O-ring to keep it in place. There's a high-polish SAAMI spec chamber with a polished feed ramp, and 1-10" rifling that'll stabilize a wide variety of 9mm Luger bullet weights. Drop-in installation - no fitting required Heat-hardened to Rc 42-44 for excellent durability High-polish feed ramp & SAAMI-spec 9mm Luger chamber Versatile 1-10" rifling Safe for inexpensive cast lead bullet practice ammo $\frac{1}{2}$ "-28 tpi muzzle threads Thread cap included Non-threaded muzzle versions also available True Precision takes just as much care to machining the exterior of the barrel to ensure superb overall fit and lockup. The four shallow flutes on the exterior? They just look darned good! You can get your Match-Grade SIG P365 Threaded Barrel with one of three finishes: a natural matte brushed finish, Black Nitride, and Gold Titanium Nitride. ALL are highly resistant to corrosion.

Attributes

- Name: [TRUE PRECISION SIG P365 THD BARREL, 1/2"X28, BLK NITRIDE, 9MM](#)

Safety Instruction Guide for True Precision SIG P365 Threaded Barrel

Introduction

Thank you for choosing the True Precision SIG P365 Threaded Barrel. This guide provides essential safety instructions to ensure the safe and effective use of your product. Please read this document carefully before installation and usage.

General Safety Guidelines

- Ensure that the firearm is unloaded before installing or handling the threaded barrel.
- Always handle firearms with care and follow standard safety practices.
- Store the threaded barrel and firearm in a secure location, away from children and unauthorized users.
- Inspect the barrel for any signs of damage before use. Do not use if damaged.
- Use only compatible ammunition (9mm Luger) with the threaded barrel.
- Be aware of the local laws and regulations regarding the use of threaded barrels and suppressors.

Specific Safety Precautions for Use

- Use hearing protection when shooting, especially when using a sound suppressor.
- Ensure that the muzzle threads are clean and free from debris before attaching any accessories.
- Do not exceed the recommended maximum bullet weight for the barrel.
- Avoid using lead bullets if you are unsure about the compatibility with your specific firearm.
- Use caution when cleaning the barrel to avoid injury from sharp edges.
- Keep the barrel away from heat sources and open flames.

Instructions for Installation and Usage

1. Preparation:

- Ensure the firearm is unloaded and pointed in a safe direction.
- Gather necessary tools (if any) for installation.

2. Installation:

- Remove the existing barrel from the firearm according to the manufacturer's instructions.
- Clean the muzzle threads of the firearm to ensure proper fit.
- Align the True Precision SIG P365 Threaded Barrel with the firearm's slide.
- Gently screw the barrel into place, ensuring it is securely fastened.
- Attach the protective muzzle cap if not using a compensator or suppressor.

3. Usage:

- Load the firearm with compatible 9mm Luger ammunition.
- Follow standard shooting practices, maintaining focus and control.
- After shooting, inspect the barrel for any signs of wear or damage.

4. Maintenance:

- Clean the barrel regularly to maintain performance.
- Store the barrel in a cool, dry place when not in use.

Disposal Instructions

- Dispose of the threaded barrel in accordance with local regulations.
- Do not dispose of the barrel in regular household waste.
- Contact your local waste management authority for proper disposal methods.

Contact Information for Further Support

For any inquiries or concerns regarding safety or product usage, please refer to the manufacturer's contact details provided with the product packaging.
