## Get Near Target Pistol Performance from Your Compact Carry SIG

Just because the SIG P365 is a compact carry pistol, doesn't mean you can't get excellent accuracy from it. Drop in a True Precision Match-Grade Threaded Barrel, and see what a superb shooter this popular EDC pistol can be. Like all True Precision barrels, the match-grade tube for the P365 is machined from certified U.S.-sourced 416R stainless steel. It gets precise broach-cut 6-groove rifling inside to ensure it delivers maximum accuracy potential, consistency, and reliability. It's lead bullet safe, too! This version of the True Precision SIG P365 match-grade barrel has 1/2"-28 tpi muzzle threads to accept a compensator or sound suppressor, and it comes with a protective muzzle cap with a Viton heat-resistant O-ring to keep it in place. There's a high-polish SAAMI spec chamber with a polished feed ramp, and 1-10" rifling that'll stabilize a wide variety of 9mm Luger bullet weights. Drop-in installation - no fitting required Heat-hardened to Rc 42-44 for excellent durability High-polish feed ramp & SAAMI-spec 9mm Luger chamber Versatile 1-10" rifling Safe for inexpensive cast lead bullet practice ammo 1/2"-28 tpi muzzle threads Thread cap included Non-threaded muzzle versions also available True Precision takes just as much care to machining the exterior of the barrel to ensure superb overall fit and lockup. The four shallow flutes on the exterior? They just look darned good! You can get your Match-Grade SIG P365 Threaded Barrel with one of three finishes: a natural matte brushed finish, Black Nitride, and Gold Titanium Nitride. ALL are highly resistant to corrosion.

## Attributes

# Safety Instruction Guide for True Precision Threaded Barrel for SIG P365

## Introduction

Thank you for choosing the True Precision Threaded Barrel for your SIG P365. This product is designed to enhance the performance of your firearm while ensuring safety during use. Please read this safety instruction guide carefully to understand how to use your product safely and effectively.

## General Safety Guidelines

- Always treat your firearm as if it is loaded.
- Store the barrel and firearm in a secure location, away from children and unauthorized users.
- Ensure that you are familiar with local laws and regulations regarding firearm modifications.
- Regularly inspect your barrel for any signs of damage or wear before use.
- Use only compatible ammunition as specified in the product description.
- Always wear appropriate safety gear, including eye and ear protection, when using your firearm.

## Specific Safety Precautions for Use

- Ensure that the barrel is properly installed before using your firearm.
- Do not exceed the recommended ammunition specifications for the SIG P365.
- Avoid using damaged or defective ammunition, as it may cause malfunctions or accidents.
- Be aware of your surroundings and ensure that you are in a safe environment when firing your weapon.
- If you experience any malfunctions, cease use immediately and consult a qualified gunsmith.

## Instructions for Installation and Usage

### Installation

1. **Ensure Safety:** Before beginning the installation, make sure the firearm is unloaded and pointed in a safe direction.
2. **Remove the Existing Barrel:** Follow the manufacturer's instructions to safely remove the existing barrel from your SIG P365.
3. **Install the Threaded Barrel:**
  - Align the True Precision Threaded Barrel with the slide.
  - Gently push the barrel into place until it is fully seated.
4. **Secure the Barrel:** Ensure that the barrel is locked in place and does not move.
5. **Check Muzzle Threads:** Inspect the ½"28 tpi muzzle threads to ensure they are clean and free of debris.

### Usage

- Once installed, you may attach a compensator or sound suppressor to the threaded muzzle as needed.
- Always ensure that the protective muzzle cap is in place when not in use to prevent debris from entering the barrel.
- Regularly clean the barrel according to the manufacturer's recommendations to maintain performance and safety.

## Disposal Instructions

- Dispose of the barrel in accordance with local regulations.
- Do not dispose of the barrel in regular household waste.

- Contact local waste management authorities for guidance on proper disposal methods.

## **Contact Information for Further Support**

For any questions or concerns regarding the True Precision Threaded Barrel for SIG P365, please consult the product packaging for the manufacturer's contact details or visit their official website for more information.

## **Conclusion**

The True Precision Threaded Barrel for SIG P365 is designed to enhance performance while ensuring safety. By following the guidelines and instructions provided in this manual, you can enjoy the benefits of your product while minimizing risks. Always prioritize safety and responsible firearm handling practices. Thank you for choosing True Precision.
