

HELIX REPLACEMENT LENSES - HELIX REPLACEMENT LENS ROSE

[Home](#)

A Set of Replacement Lenses for Your Go-To Frames

Even though a company offers different tinted lenses for different tasks, that isn't much help when you're limited to buying only a pair or two. What if you had a pair of sunglasses that could be swapped out for whatever lens color you needed? Magpul's here to help with its Helix line of replacement lenses, giving you four different options ideally suited for different outdoor activities. Each set of Magpul Helix replacement lenses are ANSI Z87+ ballistic-rated and feature oleophobic construction that protects against oil, sweat and other chemicals. There's an anti-reflection coating on the inner surface of the lenses to improve clarity, and polarized, non-polarized, mirrored and non-mirrored options are available. Clear lenses are great for shooting and indoor use and are best-suited for use in low-light situations. Bronze with blue mirroring is a great do-it-all lens for outdoor use and does well in full-sun situations, thanks to its 15-percent light transmission. Rose-colored lenses are ideally suited for shooting, thanks to their increased contrast and 38-percent light transmission. Finally, Magpul offers a gray with silver mirroring option in its Helix lineup, which is set up for very bright light conditions and features a 11.4-percent light transmission.

Safety Instruction Guide for HELIX Replacement Lenses

Introduction

Thank you for choosing the HELIX Replacement Lenses by Magpul. These lenses are designed to enhance your outdoor experience while ensuring safety and comfort. This guide provides important safety instructions and usage guidelines to help you use your lenses properly and effectively.

General Safety Guidelines

- Always inspect the lenses for any damage before use. Do not use damaged lenses.
- Ensure that the lenses fit securely in your sunglasses frame. A proper fit is essential for optimal performance and safety.
- Use lenses only for their intended purpose. For example, do not use shooting lenses for activities that require polarized lenses.
- Keep lenses out of reach of children to prevent accidental misuse or injury.
- Be aware of environmental conditions when using the lenses, as different lenses are suited for varying light conditions.

Specific Safety Precautions for Use

- **Lens Color: Rose**
 - Ideal for shooting due to increased contrast.
 - Offers 38percent light transmission; suitable for variable light conditions.
- **Lens Care**
 - Clean lenses with a soft, lintfree cloth to avoid scratches.
 - Avoid using harsh chemicals or abrasive materials when cleaning.
- **Storage**
 - Store lenses in a protective case when not in use to prevent scratches and damage.
 - Keep lenses away from extreme temperatures and direct sunlight for prolonged periods.

Instructions for Installation and Usage

1. Installation of Lenses

- Carefully remove the existing lenses from your sunglasses frame.
- Align the new HELIX replacement lenses with the frame.
- Gently press the lenses into place until they fit securely.
- Ensure that there are no gaps between the lenses and the frame.

2. Usage Instructions

- Wear the sunglasses with the installed lenses during outdoor activities as intended.
- Adjust the fit of the sunglasses to ensure comfort and stability.
- Do not attempt to modify the lenses or frame, as this may compromise safety and performance.

Disposal Instructions

- Dispose of old or damaged lenses responsibly. Check local regulations for proper disposal methods.
- Do not throw lenses in regular trash if they contain materials that are hazardous to the environment.

Contact Information for Further Support

For any safety inquiries or support regarding your HELIX Replacement Lenses, please refer to the contact point provided by your retailer or manufacturer.

Conclusion

By following these safety instructions and guidelines, you can ensure a safe and enjoyable experience with your HELIX Replacement Lenses. Always prioritize safety and care for your lenses to maximize their effectiveness and longevity.
