

# HOT BUTTON - UNITY TACTICAL MLOK SINGLE LEAD LASER 7", FDE

[Shooting Accessories](#) > [Flashlights & Accessories](#) > [Flashlight Accessories](#)

Hot Button is a revolutionary control device for weapon-mounted electronic accessories. Developed out of a need to conserve rail-estate, improve actuation ergonomics, and mechanically integrate with weapon fore ends, Hot Button has successfully reinvented how you interface with your lights and lasers. The first major innovation is the button angle. Legacy remote tape switches feature a flat pad that forces users to strain their thumbs in an unnatural angle to apply consistent pressure to activate a momentary function. Hot Button presents the activation button at a 45-degree angle for an exponentially more comfortable press. This is especially important when activating the button under pressure. A raised, crenelated bezel protects the button from accidental actuation, while providing a tactile index point for the user's thumb. Because Hot Button is angled, the overall footprint is much smaller than factory OEM pressure pads. Not only does this clean up rails on traditional weapons, but it greatly increases the accessory layout options on smaller SMG and PDW's. If that weren't enough, we have designed two separate versions of Hot Button that will attach directly to either Mil-Std M1913 Picatinny or M-LOK rail interface. Both rail systems are approved and standardized by the US Department of Defense for use on issued weapons. Hot Button secures to these rails with hardware, eliminating the need for Velcro, 100mph Tape, or Zip Ties. This secure attachment method ensures your switches stay on the gun (in the location you placed them) regardless of battlefield abuse. Hot Button is available for standard Surefire tail caps and standard Crane-Style laser ports (found in B.E. Meyers, Holosun, Insight/L-3, Steiner, and Wilcox products).

## Attributes

- Name: [UNITY TACTICAL MLOK SINGLE LEAD LASER 7", FDE](#)
- Manufacturer: [UNITY TACTICAL](#)
- Product no.: 100043349
- Mfr. No.: HBM-IF
- Colour: Flat Dark Earth
- Delivery weight: 0.077kg
- Shipping height: 64mm
- Shipping width: 76mm
- Shipping length: 114mm
- UPC: 810007880129

# HOT BUTTON UNITY TACTICAL MLOK SINGLE LEAD LASER 7", FDE Safety Instruction Guide

## Introduction

Thank you for choosing the HOT BUTTON UNITY TACTICAL MLOK SINGLE LEAD LASER. This guide provides essential safety instructions to ensure the safe use of this product. Please read this manual carefully before using the device to familiarize yourself with important safety precautions and operational guidelines.

## General Safety Guidelines

- **Product Safety:** This product is designed for safe use with weaponmounted electronic accessories. Always ensure that you are using the product as intended.
- **Enhanced Recalls:** In the event of a product recall, you will be notified through standardized recall notices. Please follow the instructions provided for returning or remedying the product.
- **Online Shopping:** If purchased online, you are entitled to the same safety protections as if you bought it in a physical store. Ensure that the online platform complies with safety requirements.
- **Special Consumer Focus:** Extra care should be taken when this product is used around vulnerable groups, particularly children. Keep the product out of reach of children and ensure that it is used only by trained individuals.
- **EU Contact Point:** For any safety inquiries, please refer to the designated EU contact point associated with this product.
- **Rapid Alerts:** Stay informed about product safety updates via the EU's Safety Gate platform. This system provides timely information on unsafe products.

## Specific Safety Precautions for Use

- **Hazard Identification:**
  - The activation button is positioned at a 45degree angle. Ensure that your thumb is properly placed to avoid straining while pressing.
  - The raised bezel protects the button from accidental activation. Always check that the button is not obstructed before use.
- **Avoiding Hazards:**
  - Do not apply excessive force to the activation button. Use a comfortable grip to avoid slipping or misfires.
  - Ensure that the product is securely attached to the rail before use. Loose attachments may lead to malfunction or safety hazards.
- **Age Restrictions:**
  - This product is intended for use by adults and trained professionals only. Keep away from children and untrained individuals.

## Instructions for Installation and Usage

- **Installation:**
  - Ensure that the weapon is unloaded and safe before installation.
  - Identify the rail system (MilStd M1913 Picatinny or MLOK) on your weapon.
  - Align the Hot Button with the rail interface, ensuring it is positioned correctly.
  - Secure the product using the provided hardware. Tighten screws to ensure a firm attachment without overtightening.
- **Usage:**
  - When activating the button, place your thumb on the button and press gently at a 45degree angle.
  - Always check the surrounding area before using the laser to avoid accidental targeting.
  - Regularly inspect the attachment and button for wear or damage. Replace if necessary.

## Disposal Instructions

- **General Disposal:** Dispose of the product in accordance with local regulations. Do not dispose of electrical components in regular household waste.
- **Recycling:** If possible, recycle the product according to local recycling guidelines to minimize environmental impact.

## Contact Information for Further Support

For any questions or concerns regarding the HOT BUTTON UNITY TACTICAL MLOK SINGLE LEAD LASER, please refer to the designated EU contact point associated with this product.

By following these safety guidelines and instructions, you can ensure the safe and effective use of your HOT BUTTON UNITY TACTICAL MLOK SINGLE LEAD LASER. Thank you for your attention to safety and responsible usage.
