

# TAPS SYNC SUREFIRE/LASER 9" BLACK VARIANT 1

[Shooting Accessories](#) > [Flashlights & Accessories](#) > [Flashlight Accessories](#)

TAPS (Tactical Augmented Pressure Switch) from TNVC and Unity Tactical is a complete one point command and control system for all weapon-mounted electronics. It provides low profile, dual-device control for lights and lasers. TAPS mounts directly to any industry standard rail, including M1913 Picatinny, KEYMOD, and M-LOK. No third party rail adapters are needed, keeping the weapon lighter and sleeker. It features two on-board buttons and two accessory leads. Available in 4 button configurations, TAPS SYNC utilizes a patented double pole dome switch to fire both devices simultaneously on isolated circuits to protect your devices. This TAPS switch comes standard with a Surefire Light lead and MIL-Standard / Crane Laser Lead that fits NATO standard lasers from Insight Technology, Steiner, B.E. Meyers, and others. TAPS is waterproof to 1 meter for 30 minutes when properly installed on a rail, and features more durable buttons than many competing pressure switches on the market. Its hardened housing will keep TAPS standing up to the rigors of the battlefield. TAPS SYNC allows the user to fire two devices simultaneously with one button, and is available in 4 button variations: Variant 1 - Button1: Light | Button2: Light + Laser Variant 2 - Button1: Laser | Button2: Light + Laser Variant 3 - Button1: Light + Laser | Button2: Light Variant 4 - Button1: Light + Laser | Button2: Laser Note: the dual-function SYNC button requires a slightly higher activation force than the standard single device button.

Mode(s): Momentary Only Weight: 2.25oz w/hardware Waterproof: 1 meter for 30 minutes

## Attributes

- Name: [TAPS SYNC SUREFIRE/LASER 9" BLACK VARIANT 1](#)
- Manufacturer: [UNITY TACTICAL](#)
- Product no.: 100043396
- Mfr. No.: TAPE-SI9B
- Color: Black
- Delivery weight: 0.281kg
- Shipping height: 114mm
- Shipping width: 178mm
- Shipping length: 178mm
- UPC: 859114006992

# TAPS SYNC Surefire/Laser 9" Black Variant 1 Safety Instruction Guide

## Introduction

Thank you for choosing the TAPS SYNC Surefire/Laser 9" Black Variant 1. This Tactical Augmented Pressure Switch (TAPS) provides a reliable command and control system for your weapon-mounted electronics. To ensure safe and effective use of this product, please read and follow the safety instructions outlined in this guide.

## General Safety Guidelines

- **Product Safety:** Ensure safe use of the TAPS SYNC by following all instructions. This product is designed for non-food applications and adheres to the EU General Product Safety Regulation (GPSR).
- **Enhanced Recalls:** Stay informed about product recalls. If a recall occurs, you will receive standardized notices and remedies at no cost.
- **Online Shopping:** When purchasing online, ensure the platform complies with safety requirements similar to those of physical stores.
- **Special Consumer Focus:** Extra precautions should be taken when using this product around vulnerable groups, including children.
- **EU Contact Point:** For safety inquiries, refer to your local EU contact point.
- **Rapid Alerts:** Regularly check the EU's Safety Gate platform for updates on product safety and recalls.

## Specific Safety Precautions for Use

- **Hazard Identification:**
  - Risk of accidental discharge if the device is activated unintentionally.
  - Risk of damage to the device if not installed correctly.
  - Risk of water damage if used beyond the specified waterproof rating.
- **Avoiding Hazards:**
  - Always ensure the device is securely mounted to the weapon rail before use.
  - Do not exceed the waterproof rating of 1 meter for 30 minutes.
  - Use the device only as intended and according to the provided instructions.
  - Keep the device out of reach of children and ensure it is used only by trained individuals.

## Instructions for Installation and Usage

### • Installation:

1. Mount the TAPS SYNC directly to any industry-standard rail (M1913 Picatinny, KEYMOD, or MLOK).
2. Ensure that the device is securely attached and does not wobble.
3. Connect the Surefire Light lead and the MIL-Standard/Crane Laser Lead to the appropriate devices.
4. Confirm that all connections are snug and free from dirt or debris.

### • Usage:

- The TAPS SYNC features two onboard buttons and two accessory leads.
- Choose from the following button configurations:
  - Variant 1 - Button1: Light | Button2: Light + Laser
  - Variant 2 - Button1: Laser | Button2: Light + Laser
  - Variant 3 - Button1: Light + Laser | Button2: Light
  - Variant 4 - Button1: Light + Laser | Button2: Laser
- Note: The dual-function SYNC button requires a slightly higher activation force than the standard single device button.

- To activate the light or laser, press the corresponding button firmly until the device activates.

## Disposal Instructions

- **Environmental Considerations:** Dispose of the TAPS SYNC in accordance with local regulations regarding electronic waste.
- **Recycling:** If possible, recycle the device and its components to minimize environmental impact.

## Contact Information for Further Support

For further assistance, please refer to your local EU contact point for safety inquiries. Regularly check the EU's Safety Gate platform for updates on product safety and recalls.

By following these guidelines, you can ensure the safe and effective use of the TAPS SYNC Surefire/Laser 9" Black Variant 1. Thank you for your attention to safety.
