

TAPS SYNC SUREFIRE/LASER 9" BLACK VARIANT 2

[Shooting Accessories](#) > [Flashlights & Accessories](#) > [Flashlight Accessories](#)

TAPS (Tactical Augmented Pressure Switch) from TNVC and Unity Tactical is a complete one point command and control system for all weapon-mounted electronics. It provides low profile, dual-device control for lights and lasers. TAPS mounts directly to any industry standard rail, including M1913 Picatinny, KEYMOD, and M-LOK. No third party rail adapters are needed, keeping the weapon lighter and sleeker. It features two on-board buttons and two accessory leads. Available in 4 button configurations, TAPS SYNC utilizes a patented double pole dome switch to fire both devices simultaneously on isolated circuits to protect your devices. This TAPS switch comes standard with a Surefire Light lead and MIL-Standard / Crane Laser Lead that fits NATO standard lasers from Insight Technology, Steiner, B.E. Meyers, and others. TAPS is waterproof to 1 meter for 30 minutes when properly installed on a rail, and features more durable buttons than many competing pressure switches on the market. Its hardened housing will keep TAPS standing up to the rigors of the battlefield TAPS SYNC allows the user to fire two devices simultaneously with one button, and is available in 4 button variations: Variant 1 - Button1: Light | Button2: Light + Laser Variant 2 - Button1: Laser | Button2: Light + Laser Variant 3 - Button1: Light + Laser | Button2: Light Variant 4 - Button1: Light + Laser | Button2: Laser Note: the dual-function SYNC button requires a slightly higher activation force than the standard single device button. Mode(s): Momentary Only Weight: 2.25oz w/hardware Waterproof: 1 meter for 30 minutes

TAPS SYNC Surefire/Laser 9" Black Variant 2

Safety Instruction Guide

Introduction

Thank you for choosing the TAPS SYNC Surefire/Laser 9" Black Variant 2. This Tactical Augmented Pressure Switch (TAPS) is designed to enhance your command and control of weaponmounted electronics. To ensure safe use and optimal performance, please read and follow the safety instructions outlined in this guide.

General Safety Guidelines

- **Product Safety:** Ensure safe use of the TAPS SYNC by following all instructions. This product is designed to meet EU safety standards and is compliant with the EU General Product Safety Regulation (GPSR).
- **Enhanced Recalls:** In the unlikely event of a product recall, consumers will be informed through standardized notices. You may receive free remedies if the product is deemed dangerous.
- **Online Shopping Protections:** If purchased online, ensure that the retailer complies with EU safety requirements, similar to those of physical stores.
- **Special Consumer Focus:** Extra precautions should be taken if the product is used by vulnerable groups, including children.
- **EU Contact Point:** For any safety inquiries, please refer to the EUbased contact point associated with this product.
- **Rapid Alerts:** Stay informed about any safety updates regarding this product through the EU's Safety Gate system.

Specific Safety Precautions for Use

- **Hazard Identification:**
 - Improper installation may lead to device malfunction.
 - Failure to follow usage instructions can result in injury or damage.
- **Avoiding Hazards:**
 - Always ensure the TAPS SYNC is securely mounted to the weapon rail before use.
 - Do not expose the product to extreme temperatures or moisture beyond its waterproof rating.
 - Use the TAPS SYNC only with compatible devices as specified in the product description.
- **AgeSpecific Warnings:**
 - This product is intended for use by adults only. Keep out of reach of children.

Instructions for Installation and Usage

- **Installation:**
 1. Ensure the weapon is unloaded and in a safe condition before installation.
 2. Mount the TAPS SYNC directly onto any industrystandard rail (M1913 Picatinny, KEYMOD, or MLOK) without the need for thirdparty adapters.
 3. Securely tighten the mounting mechanism to prevent movement during use.
 4. Connect the Surefire Light lead and MILStandard / Crane Laser Lead to their respective devices.
- **Usage:**
 - The TAPS SYNC features two onboard buttons for device control.
 - To activate the devices:
 - Press Button 1 for the assigned function (Light or Laser, depending on configuration).
 - Press Button 2 to activate the secondary function (Light + Laser).
 - Note that the dualfunction SYNC button requires a slightly higher activation force than the

standard single device button.

- Ensure that the TAPS SYNC is properly installed and functioning before relying on it in critical situations.

Disposal Instructions

- Dispose of the TAPS SYNC in accordance with local regulations regarding electronic waste.
- Do not dispose of the product in regular household waste.
- For more information on proper disposal methods, consult your local waste management authority.

Contact Information for Further Support

For any questions or concerns regarding the TAPS SYNC, please refer to the manufacturer's contact information provided with your product packaging. Ensure you have your product details available for reference.

By following these guidelines and instructions, you can ensure the safe and effective use of your TAPS SYNC Surefire/Laser 9" Black Variant 2. Thank you for your attention to safety and compliance.
