

# **TAPS SYNC - UNITY TACTICAL TAPS SYNC SUREFIRE/LASER 9" BLACK VARIANT 3**

[Shooting Accessories](#) > [Flashlights & Accessories](#) > [Flashlight Accessories](#)

TAPS (Tactical Augmented Pressure Switch) from TNVC and Unity Tactical is a complete one point command and control system for all weapon-mounted electronics. It provides low profile, dual-device control for lights and lasers. TAPS mounts directly to any industry standard rail, including M1913 Picatinny, KEYMOD, and M-LOK. No third party rail adapters are needed, keeping the weapon lighter and sleeker. It features two on-board buttons and two accessory leads. Available in 4 button configurations, TAPS SYNC utilizes a patented double pole dome switch to fire both devices simultaneously on isolated circuits to protect your devices. This TAPS switch comes standard with a Surefire Light lead and MIL-Standard / Crane Laser Lead that fits NATO standard lasers from Insight Technology, Steiner, B.E. Meyers, and others. TAPS is waterproof to 1 meter for 30 minutes when properly installed on a rail, and features more durable buttons than many competing pressure switches on the market. Its hardened housing will keep TAPS standing up to the rigors of the battlefield. TAPS SYNC allows the user to fire two devices simultaneously with one button, and is available in 4 button variations: Variant 1 - Button1: Light | Button2: Light + Laser Variant 2 - Button1: Laser | Button2: Light + Laser Variant 3 - Button1: Light + Laser | Button2: Light Variant 4 - Button1: Light + Laser | Button2: Laser Note: the dual-function SYNC button requires a slightly higher activation force than the standard single device button. Mode(s): Momentary Only Weight: 2.25oz w/hardware Waterproof: 1 meter for 30 minutes

## **Attributes**

- Name: [UNITY TACTICAL TAPS SYNC SUREFIRE/LASER 9" BLACK VARIANT 3](#)
- Manufacturer: [UNITY TACTICAL](#)
- Product no.: 100043400
- Mfr. No.: TAPD-SI9B
- Colour: Black
- Delivery weight: 0.703kg
- Shipping height: 3mm
- Shipping width: 64mm
- Shipping length: 4mm
- UPC: 810007880402

# TAPS SYNC UNITY TACTICAL Safety Instruction Guide

## Introduction

Thank you for choosing the TAPS SYNC UNITY TACTICAL TAPS SYNC SUREFIRE/LASER 9" BLACK VARIANT 3. This guide provides essential safety instructions and guidelines to ensure the safe and effective use of your product. Please read this manual carefully before installation and use.

## General Safety Guidelines

- Ensure that the TAPS SYNC is used only for its intended purpose as a tactical pressure switch for weaponmounted electronics.
- Always follow the manufacturer's instructions for installation and usage to prevent accidents.
- Keep the product out of reach of children and unauthorized users.
- Regularly inspect the device for any signs of damage or wear. If damaged, discontinue use immediately.
- Be aware of your surroundings when using the device to avoid accidents.
- Do not expose the TAPS SYNC to extreme temperatures, moisture, or corrosive environments to maintain its functionality and safety.

## Specific Safety Precautions for Use

- **Electrical Safety:** Ensure that the device is properly connected to avoid electrical hazards.
- **Button Activation:** The dualfunction SYNC button requires a slightly higher activation force than standard buttons. Practice using the button in a safe environment before operational use.
- **Device Compatibility:** Confirm that your weaponmounted electronics are compatible with the TAPS SYNC to avoid malfunction.
- **Water Resistance:** The TAPS SYNC is waterproof to 1 meter for 30 minutes when properly installed. Ensure that the installation is secure to maintain this waterproof rating.
- **Handling:** Handle the device with care to avoid dropping or damaging it.

## Instructions for Installation and Usage

### Installation

1. **Preparation:** Ensure that your weapon is unloaded and in a safe condition before installation.
2. **Mounting:**
  - Locate the industrystandard rail on your weapon (M1913 Picatinny, KEYMOD, or MLOK).
  - Align the TAPS SYNC with the rail and slide it into place until it clicks securely.
3. **Connection:**
  - Connect the Surefire Light lead and MILStandard/Crane Laser Lead to their respective devices.
  - Ensure that all connections are secure and free from any obstructions.
4. **Testing:**
  - Test the functionality of the TAPS SYNC by pressing the buttons to ensure proper operation of connected devices.

### Usage

- **Operating the Device:**
  - To activate the light, press Button 1 (Light).
  - To activate the laser, press Button 1 (Laser).
  - To activate both devices simultaneously, press the SYNC button.
- **Switching Modes:** Familiarize yourself with the button configurations:
  - Variant 1: Button1 Light | Button2 Light + Laser

- Variant 2: Button1 Laser | Button2 Light + Laser
- Variant 3: Button1 Light + Laser | Button2 Light
- Variant 4: Button1 Light + Laser | Button2 Laser

## **Disposal Instructions**

- Dispose of the TAPS SYNC in accordance with local regulations regarding electronic waste.
- Do not dispose of the product in regular household waste.
- Contact local waste management authorities for information on proper disposal methods.

## **Contact Information for Further Support**

For any questions or concerns regarding the TAPS SYNC, please refer to the manufacturer's website or customer service for assistance.

By following these guidelines, you can ensure the safe and effective use of the TAPS SYNC UNITY TACTICAL product. Thank you for prioritizing safety and compliance with the EU General Product Safety Regulation.
