

# TAPS SYNC SUREFIRE/LASER 9" BLACK VARIANT 4

[Shooting Accessories](#) > [Flashlights & Accessories](#) > [Flashlight Accessories](#)

TAPS (Tactical Augmented Pressure Switch) from TNVC and Unity Tactical is a complete one point command and control system for all weapon-mounted electronics. It provides low profile, dual-device control for lights and lasers. TAPS mounts directly to any industry standard rail, including M1913 Picatinny, KEYMOD, and M-LOK. No third party rail adapters are needed, keeping the weapon lighter and sleeker. It features two on-board buttons and two accessory leads. Available in 4 button configurations, TAPS SYNC utilizes a patented double pole dome switch to fire both devices simultaneously on isolated circuits to protect your devices. This TAPS switch comes standard with a Surefire Light lead and MIL-Standard / Crane Laser Lead that fits NATO standard lasers from Insight Technology, Steiner, B.E. Meyers, and others. TAPS is waterproof to 1 meter for 30 minutes when properly installed on a rail, and features more durable buttons than many competing pressure switches on the market. Its hardened housing will keep TAPS standing up to the rigors of the battlefield TAPS SYNC allows the user to fire two devices simultaneously with one button, and is available in 4 button variations: Variant 1 - Button1: Light | Button2: Light + Laser Variant 2 - Button1: Laser | Button2: Light + Laser Variant 3 - Button1: Light + Laser | Button2: Light Variant 4 - Button1: Light + Laser | Button2: Laser Note: the dual-function SYNC button requires a slightly higher activation force than the standard single device button. Mode(s): Momentary Only Weight: 2.25oz w/hardware Waterproof: 1 meter for 30 minutes

## Attributes

- Name: [TAPS SYNC SUREFIRE/LASER 9" BLACK VARIANT 4](#)
- Manufacturer: [UNITY TACTICAL](#)
- Product no.: 100043402
- Mfr. No.: TAPF-SI9B
- Color: Black
- Delivery weight: 0.068kg
- Shipping height: 76mm
- Shipping width: 10mm
- Shipping length: 381mm
- UPC: 810007880419

## Safety Instruction Guide

### Introduction

Thank you for choosing the TAPS SYNC Surefire/Laser 9" Black Variant 4. This Tactical Augmented Pressure Switch (TAPS) is designed to enhance your command and control over weaponmounted electronics. Please read this safety instruction guide carefully to ensure safe and effective use of the product.

### General Safety Guidelines

- **Product Safety:** Ensure safe use of the TAPS SYNC by following all instructions and guidelines provided in this document.
- **Enhanced Recalls:** Stay informed about any product recalls. If necessary, you will receive standardized recall notices and remedies for any dangerous products.
- **Online Shopping:** When purchasing online, ensure that the seller complies with safety requirements similar to those in physical stores.
- **Special Consumer Focus:** Extra care should be taken to protect vulnerable groups, including children, from potential hazards related to the use of this product.
- **EU Contact Point:** For any safety inquiries, a designated EUbased contact is available to assist you.
- **Rapid Alerts:** Be aware of the Safety Gate system, which provides updates on unsafe products quickly.

### Specific Safety Precautions for Use

- **Avoid Water Exposure:** Although the TAPS SYNC is waterproof to 1 meter for 30 minutes, do not expose it to excessive water or moisture beyond this limit.
- **Proper Installation:** Ensure that the TAPS SYNC is mounted securely to prevent accidental discharges or malfunctions.
- **Button Activation:** The dualfunction SYNC button requires a higher activation force than standard buttons. Practice using the button to become familiar with its operation.
- **Avoid Excessive Force:** Do not apply excessive force to the buttons, as this may damage the device.
- **Use Only Compatible Devices:** The TAPS SYNC is designed to work with specific lights and lasers. Ensure compatibility before use.
- **Regular Maintenance:** Inspect the TAPS SYNC regularly for any signs of wear or damage. Replace immediately if any issues are detected.

### Instructions for Installation and Usage

#### 1. Mounting the TAPS SYNC:

- Select an appropriate location on your weapon's rail (M1913 Picatinny, KEYMOD, or MLOK).
- Align the mounting system of the TAPS SYNC with the rail and secure it using the provided hardware.
- Ensure that the device is firmly attached and does not move.

#### 2. Connecting Accessories:

- Connect the Surefire Light lead and the MILStandard / Crane Laser Lead to the respective devices.
- Ensure that all connections are secure and free from debris.

#### 3. Operating the Device:

- Familiarize yourself with the button configurations:

- **Variant 1:** Button 1 Light | Button 2 Light + Laser
- **Variant 2:** Button 1 Laser | Button 2 Light + Laser
- **Variant 3:** Button 1 Light + Laser | Button 2 Light
- **Variant 4:** Button 1 Light + Laser | Button 2 Laser
- Test the buttons in a safe environment to understand their functions.
- Use the buttons as intended to activate the connected devices.

#### 4. **Safety Checks:**

- Before each use, check the TAPS SYNC for any signs of damage or malfunction.
- Ensure that the area is clear of obstructions and that you are in a safe environment.

## **Disposal Instructions**

- **Environmental Considerations:** Dispose of the TAPS SYNC in accordance with local regulations regarding electronic waste.
- **Battery Disposal:** If applicable, remove any batteries and dispose of them according to local laws.
- **Recycling:** Consider recycling components where possible to minimize environmental impact.

## **Contact Information for Further Support**

For any questions or concerns regarding the TAPS SYNC, please refer to the designated EU contact point for safety inquiries.

By following these safety instructions, you can ensure a safe and effective experience with your TAPS SYNC Surefire/Laser 9" Black Variant 4. Thank you for your attention to these important guidelines.
