

AR-15 OVERMOLDED ULTIMATE DUST COVER FOR 223/5.56 - STRIKE INDUSTRIES AR-15 OVERMOLDED ULTIMATE DUST COVER 223/5.56 BLACK

[Rifle Parts](#) > [Receiver Parts](#) > [Ejection Port Cover Parts](#) > [Ejection Port Cover Assemblies](#)

The Strike Industries AR Overmolded Ultimate Dust Cover for .223/5.56 is the next iteration of our Ultimate Dust Cover (UDC). The upgraded UDC design with double injection mold and overmolded rubberized soft sealing lip for better seal to prevent debris and water from entering when the cover is closed. The SI patent pending ""True Seal"" internal lip seals the port tighter than traditional dust cover designs. The AR Overmolded UDC comes pre-assembled with all the parts needed for a quick tool-less installation and easy disassembly using something as common as a pen or small point. Built into the UDC is an adjustable detent set screw to compensate for wear on the upper receiver. The SI patent pending noise-reduction rubber padding also makes it nearly 100% silent during activation. Made of overmolded high-strength impact resistant custom blended SI Polmer Extreme material, the SI AR Overmolded UDC does not deform or get bent out of shape. Resistant to rust unlike traditional steel covers, if the time ever comes, knowing you can remove and quickly reinstall makes this an easy cost-effective choice. Consider the Strike Industries AR Overmolded Ultimate Dust Cover for .223/5.56 on a new build or when you are going to untorque the barrel nut as this is the easiest time to remove your old stamped steel dust cover to upgrade. Install AND remove any SI UDC in just 5 to 10 seconds.

COMPATIBILITY: AR-15 Mil-Spec upper receivers Aero Precision M4E1 NOT COMPATIBLE: Upper Receivers: VLTOR MUR: Modular Upper Receiver and ZRO Delta Lantac Enhanced BCG due to carrier and bolt design

Safety Instruction Guide for Strike Industries AR15 Overmolded Ultimate Dust Cover for .223/5.56

Introduction

Thank you for choosing the Strike Industries AR15 Overmolded Ultimate Dust Cover for .223/5.56. This product is designed to enhance the performance of your firearm while ensuring safety and reliability. Please read this safety instruction guide carefully to ensure proper usage and maintenance.

General Safety Guidelines

- Always ensure the firearm is unloaded before installing or removing the dust cover.
- Handle all firearms with care and follow standard firearm safety practices.
- Keep the dust cover out of reach of children and vulnerable individuals.
- Regularly inspect the dust cover for any signs of wear or damage.
- Report any unsafe products or accidents to the relevant authorities.
- Stay informed about recall updates by checking the EU's Safety Gate platform.

Specific Safety Precautions for Use

- Ensure compatibility with your AR15 MilSpec upper receiver before installation.
- Do not attempt to use the dust cover with incompatible upper receivers, such as VLTOR MUR or ZRO Delta Lantac Enhanced BCG.
- Be cautious of the adjustable detent set screw; improper adjustment may lead to malfunction.
- Avoid exposing the dust cover to extreme temperatures or harsh chemicals that could affect its integrity.
- If the dust cover does not operate smoothly, do not force it; instead, consult the installation instructions or seek professional assistance.

Instructions for Installation and Usage

1. Installation:

- Ensure the firearm is unloaded and pointed in a safe direction.
- Remove the old dust cover by gently prying it off using a pen or small point tool.
- Align the Strike Industries AR Overmolded Ultimate Dust Cover with the ejection port.
- Press the dust cover into place until it clicks securely.
- Adjust the detent set screw if necessary to ensure a snug fit against the upper receiver.
- Test the cover by opening and closing it to ensure smooth operation.

2. Usage:

- Always check that the dust cover is closed when the firearm is not in use to prevent debris and moisture from entering.
- To open the dust cover, gently press the cover to release the internal lip seal.
- After use, ensure the dust cover is closed before storing the firearm.

Disposal Instructions

- Dispose of the dust cover in accordance with local regulations for plastic materials.
- Do not dispose of the dust cover in regular household waste if it is damaged or contains hazardous materials.

- Consider recycling options if available in your area.

Contact Information for Further Support

For any questions regarding the product, installation, or safety concerns, please reach out to the manufacturer or your retailer for assistance. They will provide you with the necessary support and information.

By following these safety instructions, you can ensure the safe and effective use of the Strike Industries AR15 Overmolded Ultimate Dust Cover for .223/5.56. Thank you for prioritizing safety and responsible firearm use.
