# Safety Instruction Guide for AR OPTICS 16X24MM SFP ILLUMINATED RIFLE SCOPE

## Introduction

Thank you for choosing the AR OPTICS 16X24MM SFP ILLUMINATED RIFLE SCOPE. This guide provides essential safety instructions and information to ensure safe and effective use of your riflescope. Please read this guide carefully and keep it for future reference.

## General Safety Guidelines

- Ensure that you are familiar with local laws and regulations regarding the use of firearms and optics.
- Always handle the riflescope with care to avoid damage.
- Keep the riflescope out of reach of children and unauthorized users.
- Regularly inspect the riflescope for any signs of damage or wear.
- Do not modify the riflescope in any way, as this may compromise safety and performance.
- If you notice any malfunction or damage, discontinue use immediately and consult a qualified technician.

## Specific Safety Precautions for Use

- Always ensure that the riflescope is securely mounted to your firearm before use.
- Use the riflescope only for its intended purpose – targeting and aiming.
- Avoid looking directly at the sun through the riflescope, as this can cause permanent eye damage.
- Maintain a safe distance from the target and ensure a clear line of sight before firing.
- Use the illumination feature responsibly, as bright settings can affect your night vision and the visibility of other users.
- Ensure that the turrets are capped and secure during transport to prevent accidental adjustments.

## Instructions for Installation and Usage

### 1. Installation

- Ensure that the firearm is unloaded before installation.
- Select an appropriate mounting base compatible with the 30mm main tube of the riflescope.
- Securely attach the riflescope to the mounting base using the provided hardware.
- Adjust the position of the riflescope to achieve the desired eye relief (3.60 inches).
- Tighten all mounting screws evenly to prevent any misalignment.

### 2. Usage

- Before using the riflescope, ensure that the illumination is functioning. Replace the CR2032 battery if necessary.
- To adjust magnification, use the Throw Down Power Change Levers provided. Switch between 1x and 6x as needed.
- Use the turrets to make adjustments for windage and elevation. Each click represents 1/4 MOA.
- Always perform a sightin process to ensure accuracy before engaging in target practice or hunting.
- After use, cover the riflescope with the provided scope covers to protect it from dust and moisture.

## Disposal Instructions

- Dispose of the riflescope and any associated materials in accordance with local regulations.
- Do not dispose of electronic components, such as batteries, in regular household waste.
- Check for local recycling programs that accept electronic waste for proper disposal.

## **Contact Information for Further Support**

For any safety inquiries, product support, or to report any issues, please refer to the manufacturer's contact information provided with your product.

## **Conclusion**

By following these safety guidelines and instructions, you can ensure a safe and enjoyable experience with your AR OPTICS 16X24MM SFP ILLUMINATED RIFLE SCOPE. Always prioritize safety and responsibility when using firearms and optics.
