

BORE-MAX SPEED BRUSH - REAL AVID 6MM/243 CALIBER BORE-MAX SPEED BRUSH

[Gun Cleaning & Chemicals](#) > [Brushes & Bore Snakes](#) > [Bore Brushes](#)

The Bore-Max Speed Brush is a component of the Bore-Max Speed Clean System for faster and easier bore cleaning. Carbon build-up not only affects performance and accuracy, but also causes degradation of the bore. Carbon build-up also insulates the copper fouling in the bore making it difficult to dissolve and remove with bore solvent. Using a bore brush to remove this carbon build-up is the best way to tackle the job. In order to achieve maximum effectiveness, there needs to be an optimal balance between bristle density and bristle flexibility. Having too few bristles is a waste of time and too many won't provide enough flexibility to navigate the lands and grooves of the bore. The bristle configuration of the Bore-Max Speed Brush provides maximum scrubbing density removing more carbon with each pass and getting maximum results faster.

Attributes

- Name: [REAL AVID 6MM/243 CALIBER BORE-MAX SPEED BRUSH](#)
- Manufacturer: [REAL AVID](#)
- Product no.: 100047669
- Mfr. No.: AVBMSB243
- Caliber: 243/6 mm (.243)
- Style: Rifle
- Delivery weight: 0.045kg
- Shipping height: 13mm
- Shipping width: 70mm
- Shipping length: 171mm
- UPC: 813119013379

BOREMAX SPEED BRUSH SAFETY INSTRUCTION GUIDE

Introduction

Thank you for choosing the BoreMax Speed Brush, a component of the BoreMax Speed Clean System designed to enhance your bore cleaning experience. This safety instruction guide provides essential information to ensure safe usage and compliance with the EU General Product Safety Regulation (GPSR).

General Safety Guidelines

- Always read and understand the product instructions before use.
- Keep the product out of reach of children and vulnerable individuals.
- Inspect the BoreMax Speed Brush for any damage before each use. Do not use if damaged.
- Use the product only for its intended purpose as described in this guide.
- Always wear appropriate safety gear, such as eye protection, when using this product.
- Report any unsafe products or accidents to the relevant authorities.

Specific Safety Precautions for Use

- Ensure that the firearm is unloaded before using the BoreMax Speed Brush.
- Avoid using excessive force during cleaning, as this may damage the bore or the brush.
- Do not use the BoreMax Speed Brush with solvents that are not recommended by the manufacturer.
- Store the BoreMax Speed Brush in a cool, dry place away from direct sunlight.
- Do not modify or alter the BoreMax Speed Brush in any way.

Instructions for Installation and Usage

1. Preparation

- Ensure your firearm is completely unloaded and pointed in a safe direction.
- Gather all necessary cleaning supplies, including bore solvent and a cleaning rod.

2. Using the BoreMax Speed Brush

- Attach the BoreMax Speed Brush to the cleaning rod securely.
- Apply a suitable bore solvent to the brush.
- Insert the brush into the bore of the firearm gently.
- Move the brush back and forth in the bore to scrub away carbon buildup.
- Repeat the process as necessary to achieve desired cleanliness.

3. PostUse Care

- After cleaning, remove the brush from the bore.
- Clean the BoreMax Speed Brush with warm water and mild soap if needed.
- Allow the brush to dry completely before storing.

Disposal Instructions

- Dispose of the BoreMax Speed Brush in accordance with local regulations.
- Do not throw the product in regular household waste.
- Check for specific disposal guidelines related to cleaning tools and chemicals.

Contact Information for Further Support

For any safety inquiries or additional support regarding the BoreMax Speed Brush, please reach out to the EUbased contact point provided by the manufacturer.

Thank you for your attention to safety and for choosing the BoreMax Speed Brush. Enjoy a safer and more effective cleaning experience!
