

BORE-MAX SPEED BRUSH - REAL AVID 20 GAUGE BORE-MAX SPEED BRUSH

[Gun Cleaning & Chemicals](#) > [Brushes & Bore Snakes](#) > [Bore Brushes](#)

The Bore-Max Speed Brush is a component of the Bore-Max Speed Clean System for faster and easier bore cleaning. Carbon build-up not only affects performance and accuracy, but also causes degradation of the bore. Carbon build-up also insulates the copper fouling in the bore making it difficult to dissolve and remove with bore solvent. Using a bore brush to remove this carbon build-up is the best way to tackle the job. In order to achieve maximum effectiveness, there needs to be an optimal balance between bristle density and bristle flexibility. Having too few bristles is a waste of time and too many won't provide enough flexibility to navigate the lands and grooves of the bore. The bristle configuration of the Bore-Max Speed Brush provides maximum scrubbing density removing more carbon with each pass and getting maximum results faster.

Attributes

- Name: [REAL AVID 20 GAUGE BORE-MAX SPEED BRUSH](#)
- Manufacturer: [REAL AVID](#)
- Product no.: 100047682
- Mfr. No.: AVBMSB20G
- Caliber: 20 Gauge
- Style: Shotgun
- Delivery weight: 0.045kg
- Shipping height: 13mm
- Shipping width: 70mm
- Shipping length: 171mm
- UPC: 813119013492

BOREMAX SPEED BRUSH Safety Instruction Guide

Introduction

Thank you for choosing the BOREMAX SPEED BRUSH. This product is designed to provide effective and efficient bore cleaning. To ensure safe use and optimal performance, please read this safety instruction guide carefully.

General Safety Guidelines

- Always follow the manufacturer's instructions for use.
- Ensure that the product is used only for its intended purpose.
- Keep the product out of reach of children and vulnerable individuals.
- Regularly inspect the product for any signs of damage or wear before use.
- Report any unsafe conditions or accidents to the relevant authorities.
- Stay informed about any recalls or safety alerts related to this product through the EU's Safety Gate platform.

Specific Safety Precautions for Use

- Use personal protective equipment (PPE) such as safety glasses and gloves when handling the bore brush.
- Avoid using the brush on hot surfaces or in environments where flammable materials are present.
- Do not use excessive force when cleaning to prevent damage to the bore or the brush.
- Ensure that the bore is free of ammunition before cleaning.
- Do not use the brush if it appears damaged or worn out.

Instructions for Installation and Usage

1. Preparation:

- Ensure that the firearm is unloaded and safe to work on.
- Gather all necessary cleaning supplies, including bore solvent and the BOREMAX SPEED BRUSH.

2. Using the Bore Brush:

- Apply a suitable bore solvent to the brush.
- Insert the brush into the bore, ensuring it is aligned properly.
- Gently push the brush through the bore, using a smooth and steady motion.
- Pull the brush back out of the bore without twisting to avoid damaging the rifling.
- Repeat as necessary until the bore is clean.

3. PostUse Care:

- Clean the brush after use to remove any carbon buildup or debris.
- Store the brush in a dry place away from direct sunlight and moisture.

Disposal Instructions

- Dispose of the product in accordance with local regulations.
- Do not throw the product in regular household waste.
- If the product is damaged or no longer usable, contact your local waste management facility for proper disposal methods.

Contact Information for Further Support

For any safety inquiries or further assistance regarding the BOREMAX SPEED BRUSH, please refer to the manufacturer's contact details provided on the packaging or visit the manufacturer's website.

Thank you for your attention to these safety guidelines. Proper use and care will help ensure the longevity and effectiveness of your BOREMAX SPEED BRUSH.
