

M-BRACE SCOPE MOUNTS - AMERICAN RIFLE COMPANY 35MM 1.50" 0 MOA SCOPE MOUNT BLACK

[Optics & Mounting](#) > [Rings, Mounts & Bases](#) > [Mount Sets](#)

The M-BRACE Scope Mounting System embodies an evolutionary step taken from ARC's successful M10 Scope Rings that have served thousands of riflemen for over a decade. It is an engineered product standing alone in stark contrast to the conveniently designed gadgets for which engineering was never a consideration. NOTE: When attached to the far aft recoil slot in the picatinny rail on an action with 90 degree bolt rotation, the 32mm height M-BRACE serrated interface block may interfere with the bolt handle when opened. This issue can usually be avoided by moving the mount forward 1 slot in the picatinny rail. Torque spec: 6.2 Nm (55 in-lbs) on scope clamp and rail mount screws. Torque spec: 3.4 Nm (30 in-lbs) on bubble level screw.

Attributes

- Name: [AMERICAN RIFLE COMPANY 35MM 1.50" 0 MOA SCOPE MOUNT BLACK](#)
- Manufacturer: [AMERICAN RIFLE COMPANY](#)
- Product no.: 100050425

MBRACE Scope Mount Safety Instructions

Introduction

Thank you for choosing the MBRACE Scope Mount by American Rifle Company. This guide provides essential safety instructions to ensure the proper and safe use of your scope mount. Please read the entire manual carefully before installation and use.

General Safety Guidelines

- Ensure that the scope mount is compatible with your rifle and scope specifications.
- Always follow safety practices when handling firearms and accessories.
- Keep the scope mount and all components out of reach of children and unauthorized users.
- Inspect the scope mount regularly for signs of wear or damage.
- Do not exceed the recommended torque specifications during installation.
- If you notice any issues with the scope mount, discontinue use immediately and consult a qualified professional.

Specific Safety Precautions for Use

- When using the MBRACE Scope Mount:
 - Be aware that when attached to the far aft recoil slot in the picatinny rail on an action with 90degree bolt rotation, the 32mm height MBRACE serrated interface block may interfere with the bolt handle when opened.
 - To avoid this issue, move the mount forward 1 slot in the picatinny rail.
- Ensure that all screws are tightened to the specified torque:
 - Torque spec: 6.2 Nm (55 inlbs) on scope clamp and rail mount screws.
 - Torque spec: 3.4 Nm (30 inlbs) on bubble level screw.
- Do not attempt to modify or alter the scope mount in any way.

Instructions for Installation and Usage

1. Preparation

- Gather all necessary tools, including a torque wrench.
- Ensure the rifle is unloaded and pointed in a safe direction.

2. Installation

- Align the MBRACE Scope Mount with the picatinny rail on your rifle.
- Attach the mount using the provided screws.
- Tighten the screws according to the specified torque settings.
- Check that the mount is securely attached before proceeding to use.

3. Usage

- Once installed, carefully attach your scope to the MBRACE Scope Mount.
- Ensure that the scope is properly aligned and secure.
- Conduct a final inspection before heading to the range or field.

Disposal Instructions

- Dispose of packaging materials responsibly by recycling where possible.
- If the scope mount is no longer usable, follow local regulations for disposal of metal and plastic

components.

Contact Information for Further Support

For any safety inquiries or further support, please consult your retailer or the manufacturer's website for additional information.

Thank you for your attention to these safety guidelines. Enjoy using your MBACE Scope Mount safely and responsibly.
