Safety Instruction Guide for .32 S&W LONG PRO 1000 PRESS

Introduction

Thank you for choosing the .32 S&W LONG PRO 1000 PRESS by Lee Precision. This progressive reloading kit is designed for safe and efficient reloading of .32 S&W Long cartridges. This guide provides essential safety instructions to ensure your safe use of this product in compliance with the EU General Product Safety Regulation (GPSR).

General Safety Guidelines

- Ensure you read and understand all instructions before using the press.
- Always wear appropriate safety gear, including safety glasses and hearing protection, when using the press.
- Keep the work area clean and free from obstructions to prevent accidents.
- Store the press and all components in a secure location, out of reach of children and pets.
- Regularly inspect the press and components for wear or damage. Do not use damaged parts.
- Follow all local laws and regulations regarding ammunition reloading.

Specific Safety Precautions for Use

- **Hazard Identification:**

- The press involves moving parts that can cause injury if not handled properly.
- Improper handling of primers and powder can lead to fire hazards.

- **Avoiding Hazards:**

- Always keep hands and clothing away from moving parts during operation.
- Do not operate the press when distracted or under the influence of drugs or alcohol.
- Use only recommended components and materials as specified in the product manual.
- Never exceed the maximum load recommendations for the cartridges being reloaded.
- Ensure all powder and primers are stored according to manufacturer guidelines.

- **Age Restrictions:**

- This product is intended for use by individuals aged 18 years and older. Keep out of reach of children.

Instructions for Installation and Usage

- **Installation:**

1. Choose a stable work surface to set up your press.
2. Securely mount the press to the work surface using appropriate fasteners.
3. Install the Breech Lock dies into the Smart Lock bushings following the colorcoded instructions.
4. Attach the Auto Drum Powder Measure and ensure it is calibrated correctly.
5. Connect the Hangdun 4 Tube Case Feeder as per the installation manual.

- **Usage:**

1. Before starting, ensure all components are correctly installed and functioning.

2. Load the cases into the feeder and ensure they align properly with the press.
3. Fill the powder measure with the appropriate powder and ensure it is securely closed.
4. Insert primers into the priming system, ensuring they are seated correctly.
5. Start the press by pulling the handle smoothly and consistently.
6. Monitor the process closely, looking for any signs of malfunction or issues.
7. Once reloading is complete, collect completed rounds in the catch bin.

Disposal Instructions

- Dispose of any unused or expired reloading materials in accordance with local regulations.
- Recycle any metal components where possible.
- Do not dispose of primers or powder in regular trash; follow hazardous waste guidelines.

Contact Information for Further Support

For any questions or concerns regarding the use of your .32 S&W LONG PRO 1000 PRESS, please consult the product manual or reach out to the designated support channels provided by the manufacturer.

By following these safety instructions, you can enjoy a safe and efficient reloading experience with your .32 S&W LONG PRO 1000 PRESS. Always prioritize safety and stay informed about best practices in reloading.
