Safety Instruction Guide for Lee Precision 44 Special Powder Thru Die

Introduction

Thank you for choosing the Lee Precision 44 Special Powder Thru Die. This product is designed to enhance your reloading experience by allowing you to charge the case while expanding the case mouth. To ensure safe and effective use, please read this safety instruction guide carefully.

General Safety Guidelines

- Always handle reloading equipment with care and follow standard safety practices.
- Ensure that the workspace is clean, welllit, and free from distractions.
- Store all reloading components, including powders and primers, in a secure location away from children and unauthorized individuals.
- Regularly inspect your equipment for signs of wear or damage before use.
- Follow the manufacturer's instructions and guidelines for all components used with the die.
- Report any unsafe products or accidents to the relevant authorities.

Specific Safety Precautions for Use

- **Hazard Identification:**

- Improper use may lead to accidental discharge or malfunction.
- Risk of injury from handling powders and primers.

- **Avoiding Hazards:**

- Always wear safety glasses and appropriate protective gear when reloading.
- Never exceed recommended powder charges as specified in reloading manuals.
- Ensure the die is securely installed before use to prevent accidents.
- Do not use the die with incompatible components or equipment.

- **Age and AudienceSpecific Warnings:**

- This product is intended for use by individuals aged 18 and over.
- Keep out of reach of children and inexperienced users.

Instructions for Installation and Usage

- **Installation:**

1. Ensure your reloading press is securely mounted and stable.
2. Remove any existing die from the press.
3. Insert the Lee Powder Thru Die into the reloading press and tighten securely.
4. Attach the appropriate powder funnel adapter or connect to the Auto Disk or Pro Auto Disk Powder Measure.

- **Usage:**

1. Prepare your cases by cleaning and inspecting them for damage.
2. Set the desired powder charge using the powder measure.
3. Place a case in the shell holder of the press.

4. Pull the handle to raise the ram, which will expand the case mouth and charge the case with powder simultaneously.
5. After charging, remove the case and proceed to the next step in your reloading process.
6. Always doublecheck the powder charge before seating a bullet.

Disposal Instructions

- Dispose of any unused powders and primers in accordance with local regulations.
- Do not dispose of reloading components in regular household waste.
- Contact your local waste management facility for proper disposal methods.

Contact Information for Further Support

For any inquiries regarding safety or product use, please contact the manufacturer directly through their official channels.

By following these guidelines and precautions, you can ensure a safe and enjoyable reloading experience with the Lee Precision 44 Special Powder Thru Die. Thank you for prioritizing safety in your reloading activities.
