Safety Instruction Guide for STEEL 3DIE PISTOL DIE SETS LEE PRECISION .3840 WCF FULL LENGTH SIZING 3DIE SET STEEL

Introduction

Thank you for choosing the Lee Steel 3Die Pistol Die Set. This product is designed for reloading .3840 Winchester cartridges and includes a Full Length Sizing Die, Bullet Seating Die, Powder Through Expanding Die, Universal Shell Holder, Powder Dipper, and Instructions/Load Data. Please read this safety instruction guide carefully to ensure safe and effective use of the product.

General Safety Guidelines

- Ensure that you are familiar with the reloading process and safety protocols before using this product.
- Always wear appropriate safety gear, including safety glasses, when handling reloading equipment and materials.
- Keep all components and tools away from children and unauthorized users.
- Do not use the dies for any purpose other than intended reloading of .3840 Winchester cartridges.
- Regularly inspect dies and tools for wear and damage before each use.

Specific Safety Precautions for Use

- **Lubrication:** Since these dies are made of steel, it is essential to lubricate cases before resizing to prevent sticking. Use an appropriate case lubricant.
- **Handling Components:** Handle all components carefully to avoid accidents. Ensure all tools are in good working condition.
- **Smoke and Fumes:** Be aware that reloading may produce smoke or fumes. Ensure proper ventilation in your workspace.
- **Avoid Distractions:** Focus on your work and avoid distractions while reloading to minimize the risk of accidents.
- **Storage:** Store the die set and all reloading components in a secure location, away from children and pets.

Instructions for Installation and Usage

1. Setup:

- Ensure your reloading press is securely mounted and stable.
- Gather all necessary components, including the die set, shell holder, and powder dipper.

2. Installing the Dies:

- Begin with the Full Length Sizing Die. Thread it into the reloading press and adjust to the desired position.
- Install the Bullet Seating Die and the Powder Through Expanding Die in the same manner, ensuring they are securely fastened.

3. Reloading Process:

- Lubricate the cases before resizing.
- Insert a lubricated case into the shell holder and raise the ram to resize.
- Follow with the Powder Through Expanding Die to prepare the case for bullet seating.

- Use the Bullet Seating Die to seat the bullet to the desired depth.
- Repeat the process for each case as needed.

4. Cleaning and Maintenance:

- Clean the dies after use to remove any residue and prevent corrosion.
- Store the dies in a dry and secure place.

Disposal Instructions

- Dispose of any unused or damaged components according to local regulations.
- Ensure that all materials are disposed of safely to prevent environmental contamination.

Contact Information for Further Support

For any questions or concerns regarding the use of this product, please refer to the manufacturer's contact information provided in the product packaging.

By adhering to these safety guidelines and instructions, you can ensure a safe and effective reloading experience with the Lee Steel 3Die Pistol Die Set. Always stay informed about safety practices and be proactive in maintaining your equipment. Thank you for prioritizing safety in your reloading activities.
