

# T3/T3X G2 BILLET MAGS - MOUNTAIN TACTICAL T3/T3X G2 BILLET MAGS 3 RD LA

[Magazines](#) > [Rifle Magazines](#) > [Magazines](#)

After the overwhelming success of the Gen1 Billet Tikka Magazines, the Mountain Tactical team went back to the drawing board to make this Tikka staple even better. Using feedback from our worldwide network of customers who use these mags in virtually every condition possible, they went to work implementing the changes they requested. Based on this feedback, Mountain Tactical is excited to introduce the Mountain Tactical Company Gen2 Billet Magazines for the Tikka T3/T3x rifle system. These magazines are 33% lighter than their Gen1 counterparts. They also feature smoother feeding and positive ejection. Additionally, the team was able to create a reliable feeding geometry that allows the long action magazine to feed 30-06 based cartridges, short magnum cartridges, and belted magnums all from the same magazine. This eliminates confusion for owners of multiple rifles. One magazine can feed all their long action Tikka T3 or T3x rifles. While we were updating the features and geometry of this magazine, we also had the opportunity to update our manufacturing processes. We passed on the cost savings of the lower machining cost with a 12.5% reduction in price compared to the Gen1 mags. Simply put, these are the finest Tikka T3 or Tikka T3x magazines available. Since the Tikka T3 and T3x were released, Tikka Shooters have complained about the plastic magazines included with the rifle. Other companies have released billet magazines, but the cost is prohibitive for most Tikka owners. Mountain Tactical Company has created an affordable magazine for the Tikka community. Construction: The Mountain Tactical Company Gen2 Billet Magazine bodies are cut from aerospace grade billet aluminum and hard anodized for a lifetime of service. The magazine followers are machined from Delrin, a self-lubricating thermo-polymer typically reserved for precision applications requiring high lubricity while retaining superior solvent and chemical resistance. One of the key components is a quality magazine spring. Going cheap would create a magazine that would fatigue over time and fail in the field. Mountain Tactical has chosen to have custom 17-7 PH stainless steel springs manufactured. 17-7 PH is an amazing material designed for the aerospace industry when intricate parts require low distortion over time and temperature changes. Additionally, it has phenomenal corrosion resistance and retains its mechanical properties under substantial stress. Specifications: Magazine Material - 6061 Aircraft Grade Aluminum Mag Catch Finish - Mil Spec Hard Anodized Magazine Follower - Delrin Magazine Spring - 17-7 Stainless Steel 3-Round - 2.1 ounces / 59 grams Long Action Magazine: Belted Magnum Cartridges 30-06 family of cartridges i.e. .270 Winchester, .280 Remington, etc. Short Mag family of cartridges Nosler Magnum family of cartridges 6.5x55se based cartridges Standard - 3 rounds COAL - 3.4 inches Compatible with Tikka T3 and Tikka T3x platforms

## Attributes

- Name: [MOUNTAIN TACTICAL T3/T3X G2 BILLET MAGS 3 RD LA](#)
- Manufacturer: [MOUNTAIN TACTICAL](#)
- Product no.: 100061469

# Safety Instruction Guide for T3/T3X G2 Billet Magazines

## Introduction

Thank you for choosing the T3/T3X G2 Billet Magazines from Mountain Tactical. This guide provides important safety information and instructions to ensure the safe and effective use of your new magazines. Please read this guide carefully before using the product.

## General Safety Guidelines

- Ensure that you are familiar with local laws and regulations regarding the use of magazines and firearms.
- Always handle magazines and firearms with care, treating them as if they are loaded.
- Store magazines in a secure location, out of reach of children and unauthorized users.
- Regularly inspect magazines for signs of wear or damage before use.
- Do not use the magazines if they are damaged or show signs of wear.
- Follow all safety precautions when loading and unloading magazines.
- Be aware of your surroundings when using firearms and magazines.

## Specific Safety Precautions for Use

- Always ensure the firearm is pointed in a safe direction when inserting or removing the magazine.
- Do not attempt to modify the magazine in any way.
- Avoid using the magazine with ammunition that is not compatible, such as those not specified for the Tikka T3/T3x.
- Do not overload the magazine beyond its capacity (3 rounds).
- Ensure that the magazine is properly seated in the firearm before use.
- If a malfunction occurs, follow the manufacturer's guidelines for clearing the issue safely.

## Instructions for Installation and Usage

### Installation

1. Ensure the firearm is unloaded and pointed in a safe direction.
2. Align the magazine with the magazine well of the firearm.
3. Push the magazine firmly into the magazine well until it clicks into place.
4. Verify that the magazine is securely attached by gently tugging on it.

### Usage

- Load the magazine with compatible ammunition (3006 Springfield, etc.) up to a maximum of 3 rounds.
- To load, press down on the follower and insert the rounds into the magazine, ensuring they are properly seated.
- To unload, remove the magazine from the firearm and carefully extract the rounds.
- Always verify that the magazine is empty before cleaning or storing it.

## Disposal Instructions

- Dispose of the magazine in accordance with local regulations.
- If the magazine is damaged or no longer usable, do not attempt to repair it. Instead, recycle or dispose of it responsibly.

## **Contact Information for Further Support**

For any questions or concerns regarding the T3/T3X G2 Billet Magazines, please refer to the manufacturer's website or customer support resources.

## **Conclusion**

By following these safety instructions, you can help ensure a safe and enjoyable experience with your T3/T3X G2 Billet Magazines. Always prioritize safety and responsible use. Thank you for being a responsible firearm owner.
