

AR-15 PULSE ATHENA COMPENSATOR .350 CALIBER - ULTRADYNE USA ATHENA COMPENSATOR, .350 CAL, 1/2X28 THREADS

[Rifle Parts](#) > [Muzzle Devices](#) > [Compensators & Muzzle Brakes](#)

Focus on Sonic Performance for Your 350 Legend

The Ultradyne Athena Compensator, .350 Cal, ½"x28 threads is designed to limit the amount of sound and gases that are directed back towards the shooter by venting the gas at an angle, and then forward. What this may mean in recoil impact is more than made up for in the amount of sound that is directed away from the shooter. The Ultradyne Athena Compensator works well and looks even better than that, with smooth, clean lines and a compact footprint that doesn't bog down your rifle. Black nitride finish 416 stainless steel construction The Ultradyne Athena Compensator has a timing nut included, so installation has never been easier.

Safety Instruction Guide for the AR15 PULSE ATHENA COMPENSATOR

Introduction

Thank you for choosing the Ultradyne Athena Compensator, .350 Caliber. This product is designed to enhance your shooting experience by reducing recoil and redirecting gases away from the shooter. To ensure your safety and the proper functioning of the compensator, please read and follow this safety instruction guide carefully.

General Safety Guidelines

- Always treat your firearm and its components as if they are loaded.
- Ensure that the compensator is compatible with your firearm before installation.
- Follow all local laws and regulations regarding firearm modifications.
- Keep the compensator and all firearm accessories out of reach of children.
- Regularly inspect the compensator for any signs of wear or damage.
- Report any unsafe products or incidents to the appropriate authorities.

Specific Safety Precautions for Use

- **Hearing Protection:** Always wear appropriate hearing protection when using firearms equipped with the compensator, as it may still produce significant noise.
- **Eye Protection:** Use safety glasses to protect your eyes from debris and other potential hazards while shooting.
- **Safe Shooting Practices:** Always follow safe shooting practices, including proper stance and handling of the firearm.
- **Avoid Overheating:** Allow the compensator to cool down after extended use to prevent burns or damage.

Instructions for Installation and Usage

1. Tools Required:

- Wrench suitable for the timing nut
- Torque wrench (optional for precise installation)

2. Installation Steps:

- Ensure the firearm is unloaded and pointed in a safe direction.
- Remove the existing muzzle device, if applicable, by unscrewing it from the muzzle.
- Clean the threads on the firearm's muzzle to ensure a proper fit.
- Align the Ultradyne Athena Compensator with the threads on the muzzle.
- Handtighten the compensator onto the muzzle.
- Use the wrench to tighten the timing nut securely, ensuring the compensator is aligned to direct gases forward.
- Check for any movement or looseness before use.

3. Usage:

- Once installed, the compensator is ready for use.
- Always check the compensator for proper alignment and tightness before shooting.
- After shooting, inspect the compensator for any signs of damage or excessive wear.

Disposal Instructions

- Dispose of the compensator in accordance with local regulations regarding metal recycling and hazardous materials.
- Ensure that the compensator is rendered unusable before disposal to prevent any misuse.

Contact Information for Further Support

For any questions or concerns regarding the Ultradyne Athena Compensator, please refer to the manufacturer's website or contact their customer service. They can provide additional information on product safety and support.

By following these guidelines, you can ensure a safe and enjoyable experience with your Ultradyne Athena Compensator. Thank you for prioritizing safety and compliance.
