# Safety Instruction Guide for SIG P226 Threaded Barrel 9MM

## Introduction

Thank you for choosing the SIG P226 Threaded Barrel 9MM from SilencerCo. This product is designed to enhance your shooting experience by allowing for the use of sound suppressors. It is important to follow the safety guidelines outlined in this document to ensure safe and effective use of the product.

## General Safety Guidelines

- Always handle firearms and firearm components with care and respect.
- Ensure the firearm is unloaded before installing or removing the barrel.
- Use only compatible suppressors designed for the SIG P226 threaded barrel.
- Keep the barrel and suppressor clean and wellmaintained to ensure optimal performance.
- Store the barrel in a secure location, away from children and unauthorized users.
- Be aware of local laws and regulations regarding the use of suppressors.

## Specific Safety Precautions for Use

- Only use the SIG P226 threaded barrel with firearms that are chambered for 9x19mm.
- Verify that the barrel is properly installed and securely tightened before use.
- Do not attempt to modify or alter the barrel in any way.
- Always wear appropriate hearing protection when firing a suppressed weapon.
- Be cautious of potential hearing damage even with a suppressor, as some noise will still be present.
- Ensure that you are in a safe environment when firing, and follow all range safety protocols.

## Instructions for Installation and Usage

### 1. Preparation:

- Ensure the firearm is pointed in a safe direction.
- Remove the magazine and check the chamber to confirm the firearm is unloaded.

### 2. Installation of the Threaded Barrel:

- Remove the factory barrel from the SIG P226 by following the manufacturer's instructions.
- Carefully insert the SIG P226 threaded barrel into the slide, ensuring it is aligned properly.
- Securely tighten the barrel as per the installation guidelines provided by SilencerCo.
- Check that the barrel is firmly in place before proceeding.

### 3. Using the Suppressor:

- Select a compatible suppressor with 1/2"28 threads.
- Screw the suppressor onto the threaded end of the barrel until it is snug but do not overtighten.
- Ensure that the suppressor is properly attached before firing.

### 4. Firing:

- Always maintain proper shooting stance and grip.
- Follow all safety protocols during shooting, including keeping the firearm pointed downrange.
- After firing, check the suppressor and barrel for any signs of wear or damage.

## **Disposal Instructions**

- Dispose of the barrel in accordance with local regulations regarding firearm components.
- Do not discard the barrel in regular trash; contact a licensed firearms dealer for proper disposal methods.
- Ensure that any disposed components are made safe and cannot be reused.

## **Contact Information for Further Support**

For any questions or concerns regarding the SIG P226 threaded barrel, please refer to the manufacturer's website or customer support resources. Ensure you have the product details ready for any inquiries.

## **Conclusion**

Following these safety instructions will help ensure a safe and enjoyable experience with your SIG P226 threaded barrel. Always prioritize safety and compliance with local laws while using this product. Thank you for your attention to these guidelines.
