

# BREAK-FREE CLP - 4 OZ. SQUEEZE BOTTLE CLP

[Gun Cleaning & Chemicals](#) > [Oils & Lubricants](#) > [Lubricant & Protectant Oils](#)

## Outstanding, All-In One, Cleaner & Lube

Break Free® CLP® is the gold standard solution requiring only one step to clean, lubricate and protect your firearm. More than a superior lubricant, CLP cleans firing residue and other contaminants from the bore, moving parts, and exterior of firearms while simultaneously reducing friction and protecting from corrosion. The CLP formula does not deteriorate under high temperatures or extreme pressure. CLP is engineered from the highest-quality synthetic oils and esters, corrosion inhibitors, and anti-wear additives. Break Free CLP is the ideal all-in-one formula to service and preserve your firearm. **CLEANS:** Break Free CLP has a special cleaning action that breaks loose dirt and corrosion that can damage the metal. Special penetrating formula displaces trapped grit and frees sticky, rusted, or corroded mechanisms. **LUBRICATES:** Break Free CLP has superior lubricating qualities that keep parts working smoothly. CLP's proprietary formula contains multiple ingredients for improved boundary film strength that reduces friction, retards wear, and stops the build-up of foreign matter. **PRESERVES:** Break Free CLP provides a long-lasting protective coating that shields all metals from rust and corrosion. Originally developed for the U.S. Military and proven in the world's most extreme conditions Break Free® CLP® is the gold standard formula for the ONE STEP lubricating and protectant firearm solution. More than a superior lubricant, CLP actually cleans firing residue and other contaminants from the bore, moving parts and exterior of firearms while simultaneously reducing friction and protecting from corrosion. Performs in temperatures ranging from -65 F to +475 F, and after saltwater immersion. Reduces metal-to-metal wear by protecting treated surfaces with an advanced boundary film. Does not deteriorate under high temperatures and extreme pressure - other brands may contain wax-based materials that will degrade and solidify into a gummy residue. Protects metals with special rust inhibitors.

## Attributes

- Name: [4 OZ. SQUEEZE BOTTLE CLP](#)
- Manufacturer: [BREAK FREE](#)
- Product no.: 102100004
- Mfr. No.: 1009232
- Size: 4 oz
- Delivery weight: 0.113kg
- Shipping height: 132mm
- Shipping width: 25mm
- Shipping length: 28mm
- UPC: 088592001049

# Safety Instruction Guide for BREAKFREE CLP 4 OZ. SQUEEZE BOTTLE CLP

## Introduction

Thank you for choosing Break Free® CLP® as your firearm cleaning, lubricating, and protecting solution. This guide provides essential safety instructions to ensure the safe use of this product in compliance with the EU General Product Safety Regulation (GPSR). Please read this guide carefully before using the product.

## General Safety Guidelines

- Always store the product out of reach of children and pets.
- Use in a wellventilated area to avoid inhalation of vapors.
- Avoid contact with eyes and skin. In case of contact, rinse thoroughly with water.
- Do not ingest. If swallowed, seek medical attention immediately.
- Keep away from heat sources, sparks, and flames.
- Follow all local regulations regarding the use and disposal of lubricants and protectants.

## Specific Safety Precautions for Use

- Ensure that the firearm is unloaded before applying Break Free CLP.
- Do not use on hot surfaces. Allow the firearm to cool before application.
- Do not mix with other chemicals or products unless specified.
- Use personal protective equipment such as gloves and safety goggles when necessary.
- Keep away from electrical appliances and components.
- Avoid spraying near open flames or hot surfaces.

## Instructions for Installation and Usage

- Shake the bottle well before use to ensure proper mixing of ingredients.
- Apply Break Free CLP directly to the areas needing cleaning, lubrication, or protection.
- For cleaning, allow the product to penetrate for a few minutes before wiping away dirt and residue.
- For lubrication, apply a thin layer to moving parts and mechanisms of the firearm.
- For protection, ensure a complete coating on all metal surfaces.
- After application, store the bottle in a cool, dry place with the cap tightly closed.

## Disposal Instructions

- Dispose of any unused product and empty containers in accordance with local regulations.
- Do not pour down the drain or dispose of in regular household waste.
- Check with local waste management authorities for specific disposal instructions.

## Contact Information for Further Support

For any questions or concerns regarding the use of Break Free CLP, please refer to the manufacturer's contact details provided on the product packaging or visit their official website for support.

By following these safety instructions, you can ensure a safe and effective experience with Break Free® CLP®. Always prioritize safety and responsible use of firearm maintenance products.
