## Outstanding, All-In One, Cleaner & Lube

Break Free® CLP® is the gold standard solution requiring only one step to clean, lubricate and protect your firearm. More than a superior lubricant, CLP cleans firing residue and other contaminants from the bore, moving parts, and exterior of firearms while simultaneously reducing friction and protecting from corrosion. The CLP formula does not deteriorate under high temperatures or extreme pressure. CLP is engineered from the highest-quality synthetic oils and esters, corrosion inhibitors, and anti-wear additives. Break Free CLP is the ideal all-in-one formula to service and preserve your firearm. **CLEANS:** Break Free CLP has a special cleaning action that breaks loose dirt and corrosion that can damage the metal. Special penetrating formula displaces trapped grit and frees sticky, rusted, or corroded mechanisms. **LUBRICATES:** Break Free CLP has superior lubricating qualities that keep parts working smoothly. CLP's proprietary formula contains multiple ingredients for improved boundary film strength that reduces friction, retards wear, and stops the build-up of foreign matter. **PRESERVES:** Break Free CLP provides a long-lasting protective coating that shields all metals from rust and corrosion. Originally developed for the U.S. Military and proven in the world's most extreme conditions Break Free® CLP® is the gold standard formula for the ONE STEP lubricating and protectant firearm solution. More than a superior lubricant, CLP actually cleans firing residue and other contaminants from the bore, moving parts and exterior of firearms while simultaneously reducing friction and protecting from corrosion. Performs in temperatures ranging from -65 F to +475 F, and after saltwater immersion. Reduces metal-to-metal wear by protecting treated surfaces with an advanced boundary film. Does not deteriorate under high temperatures and extreme pressure - other brands may contain wax-based materials that will degrade and solidify into a gummy residue. Protects metals with special rust inhibitors.

## Attributes

- Name: [0.68 OZ. SQUEEZE BOTTLE CLP](#)
- Manufacturer: [BREAK FREE](#)
- Product no.: 102100023
- Mfr. No.: 1009221
- Size: 2/3 oz
- Delivery weight: 0.023kg
- Shipping height: 79mm
- Shipping width: 18mm
- Shipping length: 18mm
- UPC: 088592001018

## **Safety Instruction Guide**

### **Introduction**

Thank you for choosing Break Free® CLP®. This product is designed to clean, lubricate, and protect your firearm effectively. It is essential to follow safety guidelines to ensure safe use and to maximize the performance of this product.

### **General Safety Guidelines**

- Always read the product label and safety data sheet before use.
- Keep the product out of reach of children and pets.
- Use the product in a wellventilated area to avoid inhalation of vapors.
- Avoid contact with skin and eyes. Wear appropriate protective equipment if necessary.
- Do not ingest. If swallowed, seek medical attention immediately.
- Store the product in a cool, dry place away from direct sunlight and heat sources.
- Dispose of any unused product and packaging in accordance with local regulations.

### **Specific Safety Precautions for Use**

- Ensure that the firearm is unloaded and pointed in a safe direction before applying Break Free CLP.
- Avoid using the product near open flames or sparks, as it is flammable.
- Do not mix Break Free CLP with other chemicals or cleaning agents.
- If you experience any adverse reactions, such as skin irritation or respiratory issues, discontinue use immediately and seek medical advice.
- Be cautious when applying the product to moving parts to prevent accidental discharge of the firearm.

### **Instructions for Installation and Usage**

#### **1. Preparation:**

- Ensure your firearm is unloaded and in a safe position.
- Remove any existing dirt or debris from the firearm's exterior.

#### **2. Application:**

- Shake the Break Free CLP squeeze bottle well before use.
- Apply a small amount of CLP directly onto the areas to be cleaned, lubricated, or protected.
- For cleaning, allow the product to penetrate for a few minutes to break down residues.
- Wipe away excess product with a clean cloth.

#### **3. Lubrication:**

- Focus on moving parts and areas prone to wear.
- Apply a thin, even layer of CLP to ensure smooth operation.

#### **4. Protection:**

- After cleaning and lubricating, ensure the firearm is coated with a protective layer of CLP to prevent rust and corrosion.
- Allow the product to dry completely before storing the firearm.

#### **5. PostUse:**

- Clean any tools or applicators used with Break Free CLP with soap and water.
- Store the product securely, ensuring the cap is tightly closed.

## **Disposal Instructions**

- Dispose of any unused Break Free CLP according to local hazardous waste regulations.
- Do not pour the product down drains or into the environment.
- Recycle the empty bottle if applicable, following local recycling guidelines.

## **Contact Information for Further Support**

For safety inquiries or additional information regarding Break Free CLP, please refer to the manufacturer's website or contact your local distributor.

By following these guidelines, you can ensure the safe and effective use of Break Free CLP, maintaining the performance and longevity of your firearm. Thank you for your attention to these important safety instructions.
