

STANDARD STOCK RECOIL SUPPRESSOR - STANDARD STOCK 5" A RECOIL SUPPRESSOR

[Shooting Accessories](#) > [Recoil Parts](#) > [Recoil Reducers](#)

Helps counteract the painful effects of recoil using mercury, one of the heaviest, densest, liquid elements. Compact, permanently sealed, steel case is made from bar stock; the only moving part is the liquid mercury so there's no wear, no chance of leaks. Mercury's viscosity varies only 1% from 0 F. to 90 F. which means the recoil-fighting performance is consistent in almost all weather conditions. Stock models fit in the rifle or shotgun stocks and are drilled and tapped 1/4"-28 tpi for easy installation and removal. Mercury Recoil Sizes

STANDARD STOCK RECOIL SUPPRESSOR Safety Instruction Guide

Introduction

Thank you for choosing the STANDARD STOCK RECOIL SUPPRESSOR. This guide provides essential safety instructions and guidelines to ensure the safe and effective use of this product. Please read this document carefully before use.

General Safety Guidelines

- Ensure the product is used only for its intended purpose as a recoil suppressor for rifles and shotguns.
- Always keep the product out of reach of children and vulnerable individuals.
- Regularly check the product for any signs of damage or wear. Do not use if damaged.
- Follow all local laws and regulations regarding the use of firearms and accessories.

Specific Safety Precautions for Use

- Use the recoil suppressor only with compatible rifle or shotgun stocks.
- Avoid exposing the suppressor to extreme temperatures or conditions that may affect its performance.
- Do not attempt to open or modify the sealed steel case, as this may lead to leaks or malfunctions.
- Be aware that the liquid mercury inside is hazardous. In case of a spill, follow local regulations for hazardous material cleanup.
- Always ensure that the firearm is unloaded before installing or removing the recoil suppressor.

Instructions for Installation and Usage

1. Installation:

- Ensure the firearm is unloaded and pointed in a safe direction.
- Locate the drilled and tapped 1/4"28 tpi area on the stock of your rifle or shotgun.
- Align the recoil suppressor with the installation point.
- Use appropriate tools to securely fasten the suppressor to the stock. Ensure it is tightly fitted to prevent movement during use.

2. Usage:

- After installation, check that the suppressor is firmly attached before using the firearm.
- When firing, maintain a proper grip on the firearm to ensure stability.
- Regularly inspect the suppressor for any signs of wear or leakage during use.

Disposal Instructions

- Dispose of the recoil suppressor according to local regulations for hazardous materials.
- Do not throw the product in regular waste. Contact local authorities for proper disposal methods.

Contact Information for Further Support

For any safety inquiries or concerns regarding the STANDARD STOCK RECOIL SUPPRESSOR, please refer to the manufacturer's contact details provided with the product packaging or visit the manufacturer's website.

Conclusion

By following these safety instructions and guidelines, you can ensure the safe use of your STANDARD STOCK RECOIL SUPPRESSOR. Always prioritize safety and responsible handling of firearms and accessories. Thank you for your attention to these important details.
