

# STANDARD STOCK RECOIL SUPPRESSOR - C & H RESEARCH

## STANDARD STOCK 4.25" RECOIL SUPPRESSOR

[Shooting Accessories](#) > [Recoil Parts](#) > [Recoil Reducers](#)

Helps counteract the painful effects of recoil using mercury, one of the heaviest, densest, liquid elements. Compact, permanently sealed, steel case is made from bar stock; the only moving part is the liquid mercury so there's no wear, no chance of leaks. Mercury's viscosity varies only 1% from 0 F. to 90 F. which means the recoil-fighting performance is consistent in almost all weather conditions. Stock models fit in the rifle or shotgun stocks and are drilled and tapped 1/4"-28 tpi for easy installation and removal. Mercury Recoil Sizes

### Attributes

- Name: [C & H RESEARCH STANDARD STOCK 4.25" RECOIL SUPPRESSOR](#)
- Manufacturer: [C & H RESEARCH](#)
- Product no.: 163000005

# Safety Instruction Guide for STANDARD STOCK RECOIL SUPPRESSOR C & H RESEARCH

## Introduction

Thank you for choosing the STANDARD STOCK RECOIL SUPPRESSOR from C & H RESEARCH. This product is designed to help reduce the painful effects of recoil when using rifles or shotguns. This guide provides essential safety information, installation instructions, and guidelines for proper use and disposal to ensure your safety and the safety of others.

## General Safety Guidelines

- Always read and understand the product instructions before use.
- Ensure that the recoil suppressor is compatible with your firearm model.
- Keep the product out of reach of children and vulnerable individuals.
- Inspect the recoil suppressor for any signs of damage before each use.
- Do not use the product if it appears damaged or compromised.
- Follow all local laws and regulations regarding the use of firearm accessories.

## Specific Safety Precautions for Use

- Be aware that the recoil suppressor contains liquid mercury, which is a hazardous material. Handle with care.
- In the event of a leak or breakage, avoid direct contact with the mercury. Clean up spills immediately using appropriate safety measures.
- Do not attempt to open the sealed case of the recoil suppressor. It is designed to be permanently sealed.
- Avoid using the recoil suppressor in extreme temperatures outside the range of 0°F to 90°F, as performance may be affected.
- Always wear appropriate personal protective equipment (PPE) when using firearms, including eye and ear protection.

## Instructions for Installation and Usage

### Installation

1. **Identify the Stock:** Ensure that your rifle or shotgun stock is compatible with the recoil suppressor.
2. **Prepare the Area:** Work in a clean, dry environment to avoid contamination.
3. **Drilling and Tapping:**
  - Use a 1/4"28 tpi tap to prepare the stock for installation.
  - Ensure that the holes are drilled straight and at the correct depth to avoid damaging the stock.
4. **Install the Recoil Suppressor:**
  - Align the recoil suppressor with the drilled holes.
  - Secure it using the appropriate screws, ensuring a snug fit without overtightening.

### Usage

- Once installed, test the functionality of the recoil suppressor by firing the firearm in a safe and controlled environment.
- Monitor for any unusual noises or performance issues during use.
- Always follow standard safety precautions when handling and firing your firearm.

## Disposal Instructions

- Do not dispose of the recoil suppressor in regular household waste.
- Contact your local waste management authority for guidance on the proper disposal of hazardous materials, including mercury.
- Ensure that the product is disposed of in accordance with local environmental regulations to prevent contamination.

## Contact Information for Further Support

For any safety inquiries or concerns regarding the STANDARD STOCK RECOIL SUPPRESSOR, please reach out to your local distributor or retailer for assistance.

By following these safety instructions, you can ensure a safe and effective experience with your STANDARD STOCK RECOIL SUPPRESSOR. Thank you for your attention to safety and responsible use.
