

STANDARD STOCK RECOIL SUPPRESSOR - C & H RESEARCH

STANDARD STOCK 4" A RECOIL SUPPRESSOR

[Shooting Accessories](#) > [Recoil Parts](#) > [Recoil Reducers](#)

Helps counteract the painful effects of recoil using mercury, one of the heaviest, densest, liquid elements. Compact, permanently sealed, steel case is made from bar stock; the only moving part is the liquid mercury so there's no wear, no chance of leaks. Mercury's viscosity varies only 1% from 0 F. to 90 F. which means the recoil-fighting performance is consistent in almost all weather conditions. Stock models fit in the rifle or shotgun stocks and are drilled and tapped 1/4"-28 tpi for easy installation and removal. Mercury Recoil Sizes

STANDARD STOCK RECOIL SUPPRESSOR C & H RESEARCH

Introduction

Thank you for choosing the STANDARD STOCK RECOIL SUPPRESSOR from C & H RESEARCH. This product is designed to help reduce the painful effects of recoil when using firearms. It utilizes mercury, a dense liquid element, to provide consistent performance in various weather conditions. This safety instruction guide is designed to ensure the safe and effective use of your recoil suppressor in compliance with the EU General Product Safety Regulation (GPSR).

General Safety Guidelines

- Ensure proper use of the recoil suppressor to avoid accidents.
- Always follow the manufacturer's instructions for installation and usage.
- Regularly inspect the suppressor for any signs of damage or wear.
- Keep the suppressor out of reach of children and vulnerable individuals.
- Report any unsafe products or incidents to the appropriate authorities.
- Check for recall updates on the EU's Safety Gate platform.

Specific Safety Precautions for Use

- Do not exceed the recommended weight specifications for your specific suppressor model.
- Ensure that the suppressor is securely installed before use.
- Avoid exposing the suppressor to extreme temperatures or conditions that may affect its performance.
- Do not attempt to disassemble or modify the suppressor in any way.
- If you notice any leaks or damage, discontinue use immediately and contact customer support.

Instructions for Installation and Usage

Installation

1. **Preparation:** Ensure you have the appropriate tools for installation, specifically a drill and a 1/4"28 tpi tap.
2. **Select the Location:** Choose an appropriate location on your rifle or shotgun stock for installation.
3. **Drilling:** Carefully drill a hole at the selected location, ensuring it is straight and clean.
4. **Tapping:** Use the 1/4"28 tpi tap to create threads in the drilled hole.
5. **Insert the Suppressor:** Align the suppressor with the threaded hole and gently screw it in until secure.
6. **Check Stability:** Ensure that the suppressor is firmly attached and does not wobble.

Usage

- Always ensure the firearm is unloaded before handling or installing the suppressor.
- When using the firearm, maintain a proper grip and stance to manage recoil effectively.
- Monitor the suppressor during use for any unusual noises or signs of malfunction.
- After use, clean the suppressor according to the manufacturer's recommendations.

Disposal Instructions

- Dispose of the suppressor in accordance with local regulations concerning hazardous materials.
- Do not throw the suppressor in regular household waste.
- Contact local waste management authorities for guidance on proper disposal methods.

Contact Information for Further Support

For any inquiries regarding safety, usage, or product support, please refer to the customer service section provided with your product packaging or visit the manufacturer's website.

Thank you for your attention to these safety guidelines. Your safety is our priority. Enjoy your shooting experience with the STANDARD STOCK RECOIL SUPPRESSOR!
