

COPPER ELIMINATOR BORE BRUSHES - DEWEY 17 CALIBER 5-40M BORE BRUSH 3/PACK

[Gun Cleaning & Chemicals](#) > [Brushes & Bore Snakes](#) > [Bore Brushes](#)

All-Aluminum Components Eliminate "False-Positive" Copper Fouling Indications

Cleaning brushes have machined aluminum components that don't react with ammonia-based solvents like brass parts sometimes do. Won't produce blue-green stains on your patches that can be misinterpreted as "false positive" indications of copper fouling, so you'll know when your bore really is copper-free. Similar in hardness to brass, Copper Eliminator parts won't scratch the bore or damage the muzzle, and they'll stand up to hard use. Nylon bristles wound around an aluminum core and male-threaded aluminum coupling are completely brass-free to eliminate false-positive blue-green indications of copper fouling that can occur when using ammonia-based solvents with brass core brushes. Dense nylon bristles give plenty of scrubbing power, yet are extremely gentle on the rifling. .17 and .20 caliber brushes with 5-40 threads extend the benefits of the Copper Eliminator system to your existing small-caliber rod. The .22 caliber and larger brushes have 8-32 threads for use with Dewey Copper Eliminator rods.

Attributes

- Name: [DEWEY 17 CALIBER 5-40M BORE BRUSH 3/PACK](#)
- Manufacturer: [DEWEY](#)
- Product no.: 234000100
- Mfr. No.: B-17PNA
- Caliber: 17 Caliber (.172)
- Style: Handgun,Rifle
- Quantity: 3
- Delivery weight: 0.005kg
- Shipping width: 57mm
- Shipping length: 89mm
- UPC: 608060000291

Safety Instruction Guide for COPPER ELIMINATOR BORE BRUSHES

Introduction

Thank you for choosing the COPPER ELIMINATOR BORE BRUSHES by DEWEY. This guide provides essential safety instructions and usage recommendations to ensure your safe and effective use of the product. Please read this guide carefully before using the bore brushes.

General Safety Guidelines

- Ensure the product is suitable for your firearm's caliber before use.
- Always handle bore brushes with care to avoid injury.
- Keep the bore brushes out of reach of children and vulnerable individuals.
- Regularly inspect the brushes for any signs of wear or damage before each use.
- Use the brushes only for their intended purpose; do not modify or misuse them.
- If you experience any adverse reactions while using the product, discontinue use immediately and seek medical advice.

Specific Safety Precautions for Use

- Always wear appropriate eye protection when cleaning your firearm.
- Use bore brushes in a wellventilated area to avoid inhaling any fumes from cleaning solvents.
- Do not use ammonia based solvents with brass components, as they may react and cause false positives for copper fouling.
- Ensure that the bore brush is securely attached to the cleaning rod before use to prevent it from detaching during cleaning.
- Avoid excessive force when scrubbing to protect the rifling of your firearm.

Instructions for Installation and Usage

1. Preparation:

- Ensure the firearm is unloaded and pointed in a safe direction.
- Gather all necessary cleaning materials, including the bore brush, cleaning rod, and suitable cleaning solvent.

2. Installation:

- Select the appropriate bore brush for your firearm caliber (.17 or .20 caliber brushes with 540 threads; .22 caliber and larger brushes with 832 threads).
- Attach the bore brush to the cleaning rod by screwing it securely into the rod's threaded end.

3. Usage:

- Apply a small amount of cleaning solvent to the bore brush.
- Insert the bore brush into the firearm's barrel from the breech end (if applicable).
- Gently pull the brush through the barrel, using a backandforth motion to ensure thorough cleaning.
- Repeat the process as necessary until the bore is clean.
- After cleaning, remove the bore brush and clean the brush with solvent if needed.

4. PostUsage:

- Store the bore brushes in a dry, safe place, away from children and pets.
- Regularly check the brushes for signs of wear and replace them as needed.

Disposal Instructions

- Dispose of used bore brushes in accordance with local regulations for waste disposal.
- Do not dispose of bore brushes in regular household waste if they are contaminated with hazardous materials.
- Check with local waste management authorities for guidance on proper disposal methods.

Contact Information for Further Support

For any questions or concerns regarding the COPPER ELIMINATOR BORE BRUSHES, please refer to the manufacturer's contact information provided on the packaging or product insert.

Thank you for your attention to these safety instructions. Your safety and satisfaction are our top priorities.
