

# REMINGTON 783 LONG ACTION SCOPE BASES - EGW REMINGTON 783 LONG ACTION 0 MOA

[Optics & Mounting](#) > [Rings, Mounts & Bases](#) > [Rifle Bases](#)

EGW Remington 783 Long Action Scope Bases. Add the versatility of a one-piece Picatinny scope rail to your shotgun with no drilling or tapping. Precision machined from extruded aluminum with Picatinny slot-and-rail spacing that allows fast and simple changes to eye relief, plus great flexibility in scope choice. Drilled to fit the factory scope mount holes on the gun's receiver. Accepts Picatinny or Weaver scope rings. Lightweight Tactical mounts have a milled center channel for weight reduction. Full-width cross-slots are gauged to MIL-STD 1913 specs to +/- .002". Machined from ultra-rigid, extruded 6061 T6 aluminum. Includes socket head Torx® screws and wrench. EGW recommends 20 inch lbs of torque and a drip of blue loctite for mounting.

# REMINGTON 783 LONG ACTION SCOPE BASES

## Safety Instruction Guide

### Introduction

Thank you for choosing the EGW Remington 783 Long Action Scope Bases. This product is designed to enhance your shooting experience by providing a reliable and versatile mounting solution for your scope. Please read this safety instruction guide carefully to ensure safe and proper use of the product.

### General Safety Guidelines

- Ensure that the product is compatible with your firearm before installation.
- Always handle firearms with care and follow all safety protocols associated with firearm use.
- Keep the product and all related accessories out of reach of children.
- Regularly inspect the scope bases and mounting hardware for signs of wear or damage.
- If you notice any issues, discontinue use immediately and seek assistance.

### Specific Safety Precautions for Use

- Always confirm that the firearm is unloaded before attaching or detaching the scope bases.
- Use only compatible Picatinny or Weaver scope rings as specified in the product description.
- When tightening the screws, apply the recommended torque of 20 inch lbs. Excessive force may damage the product or your firearm.
- Use a drip of blue loctite on screws to ensure they remain secure during use.
- Be aware of the potential for eye relief changes when adjusting your scope. Always check your eye alignment before firing.

### Instructions for Installation and Usage

#### 1. Preparation

- Ensure your firearm is unloaded and in a safe condition.
- Gather all necessary tools, including a Torx® wrench.

#### 2. Installation

- Locate the factory scope mount holes on the receiver of your Remington 783.
- Align the EGW scope bases with the mounting holes.
- Insert the provided socket head Torx® screws into the holes and handtighten them.
- Use the Torx® wrench to tighten the screws to a torque of 20 inch lbs.
- Apply a small drop of blue loctite to the screws for added security.

#### 3. Usage

- After installation, mount your scope onto the Picatinny rail.
- Adjust the scope for eye relief and ensure it is securely attached.
- Conduct a test fire to confirm proper alignment and function.

### Disposal Instructions

- Dispose of any packaging materials responsibly.
- If the product becomes damaged or is no longer needed, follow local regulations for disposal of aluminum materials.

- Do not dispose of the product in regular household waste. Check for recycling options in your area.

## **Contact Information for Further Support**

For any questions regarding the installation, usage, or safety of the EGW Remington 783 Long Action Scope Bases, please refer to the manufacturer's contact information provided on the product packaging or visit the manufacturer's website.

By following these guidelines, you can ensure a safe and effective experience with your EGW Remington 783 Long Action Scope Bases. Always prioritize safety and adhere to local laws and regulations regarding firearm use.
