

REMINGTON XP 100, 7 HD SCOPE BASES - EGW REMINGTON XP 100, 7 4-HOLE 20 MOA W/ #6 SCREWS

[Optics & Mounting](#) > [Rings, Mounts & Bases](#) > [Rifle Bases](#)

EGW Remington XP 100, Model 7 4-Hole Heavy Duty Scope Bases. Add the versatility of a one-piece Picatinny scope rail to your shotgun with no drilling or tapping. Precision machined from extruded aluminum with Picatinny slot-and-rail spacing that allows fast and simple changes to eye relief, plus great flexibility in scope choice. Drilled to fit the factory scope mount holes on the gun's receiver. Accepts Picatinny or Weaver scope rings. Heavy Duty mounts are .100" lower than the Lightweight mounts to minimize weight and keep your optic closer to the barrel centerline for improved accuracy. Full-width cross-slots are gauged to MIL-STD 1913 specs to +/- .002". Machined from ultra-rigid extruded 7075 T6 aluminum. Includes socket head Torx® screws and wrench. EGW recommends 20 inch lbs of torque and a drip of blue loctite.

Safety Instruction Guide for REMINGTON XP 100, 7 HD SCOPE BASES

Introduction

Thank you for choosing the EGW Remington XP 100, Model 7 4Hole Heavy Duty Scope Bases. This guide provides essential safety instructions to ensure the safe and effective use of this product. Please read the entire guide before installation and usage.

General Safety Guidelines

- Always ensure that the firearm is unloaded before installing or adjusting the scope bases.
- Keep the scope bases and tools out of reach of children and unauthorized users.
- Regularly inspect the scope bases for any signs of wear or damage.
- Use the product only for its intended purpose and follow all manufacturer instructions.
- In case of any malfunction, cease use immediately and consult a qualified gunsmith.

Specific Safety Precautions for Use

- Ensure that the scope bases are compatible with your firearm model.
- Avoid overtightening the screws, as this may lead to damage or failure of the scope bases.
- Use the recommended torque of 20 inch lbs when securing the scope bases.
- Apply a drop of blue loctite to the screws to prevent loosening during use.
- Do not modify the scope bases in any way, as this may compromise safety and functionality.

Instructions for Installation and Usage

1. Preparation

- Gather all necessary tools: socket head Torx® screws and wrench.
- Ensure you have a clean and welllit workspace.

2. Installation Steps

- Verify that the firearm is unloaded.
- Locate the factory scope mount holes on the gun's receiver.
- Align the scope base with the mount holes.
- Insert the screws through the base into the mount holes.
- Using the wrench, tighten the screws to the recommended torque of 20 inch lbs.
- Apply a drop of blue loctite to each screw to secure them in place.

3. PostInstallation

- Check the alignment of the scope base to ensure it is level.
- Attach the scope rings and mount your scope according to the manufacturer's instructions.
- Make any necessary adjustments to eye relief and scope positioning.

Disposal Instructions

- Dispose of any packaging materials in accordance with local recycling regulations.
- If the scope bases are no longer functional or safe to use, dispose of them in a responsible manner. Check with local waste management authorities for proper disposal methods.

Contact Information for Further Support

For any safety inquiries or further assistance, please refer to the manufacturer's contact information provided with your product packaging. It is important to have access to support for any concerns regarding the safety and functionality of the scope bases.

Conclusion

By following these safety instructions, you can ensure a safe and effective experience with your EGW Remington XP 100, Model 7 4Hole Heavy Duty Scope Bases. Always prioritize safety and consult professionals when in doubt. Thank you for your attention to these guidelines.
