

# TRAUMA KIT NOW! SUPPLY REFILL - TRAUMA KIT NOW! ESSENTIAL SUPPLIES REFILL

[Emergency & Survival Gear](#) > [First Aid](#) > [First Aid Kits](#)

The Trauma Kit refill is not just another small tactical first aid kit. Each component was specifically chosen for its combat proven effectiveness combined with never before seen packaging techniques to make them as small as possible. The most popular MTKN configuration in service with police, military and medical providers worldwide. The ADVANCED kit is designed to treat traumatic injuries as per the MARCH protocol for those providers trained in TCCC concepts. The lightest and smallest fulltreatment trauma kit available. The Trauma Kit supplies were designed from the ground up around a specific need for an ultra-concealable trauma kit. The Pro Version was designed primarily for First Responders, equipped to treat life threatening bleeding and bridge the time gap between injury and arrival of advanced medical providers. Paired with a tourniquet, the PRO kit allows for treatment of extremity and junctional bleeding with a minimal amount of training. The ESSENTIALS kit has just what you need to address the #1 cause of traumatic death - BLEEDING.

# TRAUMA KIT NOW! SUPPLY REFILL TRAUMA KIT NOW! ESSENTIAL SUPPLIES REFILL Safety Instruction Guide

## Introduction

Thank you for choosing the TRAUMA KIT NOW! SUPPLY REFILL. This trauma kit is designed to provide essential supplies for treating traumatic injuries effectively and efficiently. It is crucial to understand how to use this kit safely to ensure the best outcomes in emergency situations. This guide provides important safety instructions and guidelines to help you use the kit properly while complying with the EU General Product Safety Regulation (GPSR).

## General Safety Guidelines

- Ensure the kit is stored in a cool, dry place, away from direct sunlight and extreme temperatures.
- Regularly check the contents of the kit for expiration dates and replace any expired items immediately.
- Keep the kit out of reach of children to prevent accidental use or ingestion of supplies.
- Use the kit only for its intended purpose: to treat traumatic injuries.
- Always seek professional medical assistance after using the kit for serious injuries.

## Specific Safety Precautions for Use

- Before using any item in the kit, ensure that you are trained in basic first aid and trauma care.
- Be aware of your surroundings and ensure that it is safe to administer first aid before proceeding.
- Use gloves when handling blood or bodily fluids to reduce the risk of infection.
- If a tourniquet is used, ensure it is applied correctly and monitor the injured person closely.
- Be cautious when using sharp instruments or tools included in the kit, such as scissors or scalpels.

## Instructions for Installation and Usage

### 1. Opening the Kit

- Locate the zipper or closure mechanism of the kit.
- Carefully open the kit to avoid damaging any contents.

### 2. Identifying Supplies

- Familiarize yourself with the contents of the kit. Refer to the supplied inventory list for identification.
- Ensure that all necessary supplies are available before proceeding with treatment.

### 3. Administering First Aid

- Assess the injury and determine the appropriate course of action.
- For bleeding:
  - Apply direct pressure using sterile dressings.
  - If bleeding does not stop, apply a tourniquet above the injury site.
- For other injuries, follow the appropriate first aid protocols as per your training.

### 4. Aftercare

- Once first aid has been administered, monitor the injured person for any changes in condition.

- Always seek professional medical help as soon as possible after using the kit.

## **Disposal Instructions**

- Dispose of any used or expired supplies in accordance with local regulations for medical waste.
- Do not throw away the kit itself if it is still in usable condition; instead, restock it with new supplies.
- Ensure that all sharp objects are disposed of safely to prevent injury to others.

## **Contact Information for Further Support**

For any safety inquiries or additional support, please refer to the contact information provided by the manufacturer or supplier. It is essential to have access to professional advice in case of uncertainties regarding the use of the trauma kit.

By following these safety guidelines and instructions, you can use the TRAUMA KIT NOW! SUPPLY REFILL effectively and safely. Always prioritize safety and seek professional help when necessary.
