

# TRAUMA KIT NOW! SUPPLY REFILL - BLUE FORCE GEAR TRAUMA KIT NOW! PRO SUPPLIES REFILL

[Emergency & Survival Gear](#) > [First Aid](#) > [First Aid Kits](#)

The Trauma Kit refill is not just another small tactical first aid kit. Each component was specifically chosen for its combat proven effectiveness combined with never before seen packaging techniques to make them as small as possible. The most popular MTKN configuration in service with police, military and medical providers worldwide. The ADVANCED kit is designed to treat traumatic injuries as per the MARCH protocol for those providers trained in TCCC concepts. The lightest and smallest fulltreatment trauma kit available. The Trauma Kit supplies were designed from the ground up around a specific need for an ultra-concealable trauma kit. The Pro Version was designed primarily for First Responders, equipped to treat life threatening bleeding and bridge the time gap between injury and arrival of advanced medical providers. Paired with a tourniquet, the PRO kit allows for treatment of extremity and junctional bleeding with a minimal amount of training. The ESSENTIALS kit has just what you need to address the #1 cause of traumatic death - BLEEDING.

# TRAUMA KIT NOW! SUPPLY REFILL Safety Instruction Guide

## Introduction

Thank you for choosing the TRAUMA KIT NOW! SUPPLY REFILL by BLUE FORCE GEAR. This kit is designed to provide essential supplies for treating traumatic injuries effectively. It is crucial to understand how to use this kit safely and effectively to ensure the wellbeing of both the user and the patient.

## General Safety Guidelines

- Ensure that the kit is stored in a cool, dry place away from direct sunlight.
- Regularly check the contents of the kit to ensure that all items are present and not expired.
- Keep the kit out of reach of children and vulnerable individuals unless they are trained to use it.
- Always read the instructions provided with each component of the kit before use.
- In case of doubt or uncertainty about any item, seek professional medical advice.

## Specific Safety Precautions for Use

- Familiarize yourself with the MARCH protocol before using the kit.
- Use gloves when treating wounds to prevent infection.
- Ensure that the area is safe and secure before administering first aid.
- Do not attempt to treat severe injuries without proper training; seek professional medical assistance as soon as possible.
- Be aware of any allergies or medical conditions of the person receiving treatment that may affect the use of the supplies.

## Instructions for Installation and Usage

### 1. Opening the Kit:

- Open the kit carefully to avoid damaging any components.
- Ensure that you have a clean workspace.

### 2. Using the Supplies:

- **Tourniquet:**
  - Apply the tourniquet above the injury site. Tighten until bleeding stops.
  - Note the time of application, as this information is crucial for medical professionals.
- **Dressing and Bandages:**
  - Clean the wound with sterile gauze if possible.
  - Apply the dressing firmly but not too tight to avoid restricting blood flow.
- **Hemostatic Agents:**
  - Use as directed on the packaging to control severe bleeding.
- **Other Supplies:**
  - Follow the specific instructions provided with each item for optimal use.

### 3. PostUse:

- Dispose of any used supplies safely and according to local regulations.
- Replenish the kit with any used items to maintain readiness for future use.

## **Disposal Instructions**

- Dispose of used medical supplies in accordance with local healthcare regulations.
- Do not throw away used items in regular household waste.
- Ensure that all items are disposed of in a way that prevents harm to others, especially children and pets.

## **Contact Information for Further Support**

For any inquiries regarding the TRAUMA KIT NOW! SUPPLY REFILL, please refer to the contact details provided with the product packaging. It is essential to have access to support for any safety concerns or productrelated questions.

By following these safety instructions, you can ensure that you are prepared to respond effectively in emergency situations while adhering to safety regulations. Always prioritize safety and seek professional help when needed.
