

SSA X 2-STAGE TRIGGER WITH LIGHTNING BOW® FOR AR-15 - GEISSELE AUTOMATICS LLC SSA X 2-STAGE TRIGGER W/LIGHTNING BOW FOR AR-15

[Rifle Parts](#) > [Triggers Parts](#) > [Triggers](#)

The SSA-X with Lightning Bow® trigger delivers the ultimate in trigger control, with a semi-curved, wide-body profile that combines the best features of the standard curved AR trigger and the popular flat-bow design. The SSA-X features Geissele's Nanoweapon coating on the major components, which dramatically enhance wear and corrosion resistance and keep the trigger running smoothly even with minimal lubrication. The SSA-X trigger follows in the tradition of the venerable SSA, and is a duty rated trigger that is light enough for accurate and precise shots, but forgiving enough for CQB. SPECS PLATFORM: AR15/AR10 TYPE: 2 Stage 1st STAGE WEIGHT RANGE: 2.75 - 3 lbs. 2nd STAGE WEIGHT RANGE: 1.5 - 1.75 lbs. TOTAL PULL WEIGHT RANGE: 4.25 - 4.75 lbs. ADJUSTABLE: No TRIGGER BOW TYPE: Lightning Bow® PIN SIZE: Mil-Spec What is Geissele Nanoweapon? Geissele Nanoweapon (also known as Picatinny DSL) is a family of Durable Solid Lubricant coatings which was developed by ARDEC. It is available exclusively from Geissele Automatics. Geissele continued the development of Picatinny DSL so that its level of corrosion, wear and abrasion resistance is currently unmatched among firearm coatings. Nanoweapon is applied at low temperatures so that the underlying metallurgy of the part is non effected by the application process. Geissele's coating also has a surface hardness roughly equivalent to synthetic diamond. This makes Geissele Nanoweapon harder than sand, easily rejecting carbon and making cleaning a breeze, on top of allowing the firearm to operate normally with less lubrication. NOTE: Geissele triggers are designed for mil-spec AR15/M4 carbine rifles. Geissele AR15 triggers are not compatible with the Sig MPX/MCX weapons or Pistol Caliber Carbine AR15/M4 variants. Using them in these platforms will void the warranty."

Attributes

SSA X 2Stage Trigger with Lightning Bow® for AR15 Safety Instruction Guide

Introduction

Thank you for choosing the SSA X 2Stage Trigger with Lightning Bow® for AR15 by Geissele Automatics LLC. This product is designed to enhance your shooting experience while ensuring safety during use. Please read this safety instruction guide carefully to understand the proper handling, installation, and maintenance of your trigger.

General Safety Guidelines

- Ensure that you are familiar with the operation of your firearm before installing or using the SSA X trigger.
- Always treat every firearm as if it is loaded.
- Keep the firearm pointed in a safe direction at all times.
- Store the SSA X trigger and your firearm securely, out of reach of children and unauthorized users.
- Do not use the SSA X trigger if it appears damaged or malfunctioning.
- Regularly inspect the trigger and firearm for any signs of wear or damage.
- Follow all local laws and regulations regarding firearm use and modifications.

Specific Safety Precautions for Use

- Only use the SSA X trigger with milspec AR15/M4 carbine rifles.
- The SSA X trigger is not compatible with Sig MPX/MCX weapons or Pistol Caliber Carbine AR15/M4 variants.
- Ensure that the firearm is unloaded before installing or handling the trigger.
- Avoid using excessive force when installing or adjusting the trigger to prevent damage.
- Be cautious when cleaning your firearm, as improper cleaning can affect the trigger's performance.
- Always wear appropriate eye and ear protection when operating your firearm.

Instructions for Installation and Usage

Installation

1. Ensure that the firearm is unloaded and pointed in a safe direction.
2. Remove the existing trigger from the lower receiver of your AR15 according to the manufacturer's instructions.
3. Carefully install the SSA X trigger into the lower receiver, ensuring that it is properly seated.
4. Follow the manufacturer's instructions for securing the trigger in place.
5. Once installed, conduct a function check to ensure proper operation before using the firearm.

Usage

- Familiarize yourself with the trigger's operation and characteristics before live firing.
- Practice dry firing in a safe environment to get accustomed to the trigger pull and reset.
- When ready to fire, maintain a proper grip and stance for stability.
- Be aware of your target and what lies beyond it when firing.

Disposal Instructions

- Dispose of any packaging materials in accordance with local regulations.
- If the SSA X trigger becomes damaged beyond repair, dispose of it responsibly. Contact local waste management services for guidance on proper disposal methods.

Contact Information for Further Support

For any safety inquiries or concerns regarding the SSA X trigger, please refer to your local Geissele Automatics LLC representative or visit the official website for support resources.

Conclusion

By following these safety guidelines and instructions, you can ensure the safe and effective use of your SSA X 2Stage Trigger with Lightning Bow® for AR15. Always prioritize safety and proper handling when using firearms and their components. Thank you for choosing Geissele Automatics LLC.
