

260 REMINGTON BRASS CASE - 260 REMINGTON BRASS 50/BOX

[Reloading](#) > [Brass](#) > [Rifle Brass](#)

Norma Brass provides the serious reloader a premium grade, quality cartridge to reload. Norma Brass is bulk packed from the same lot. We try to keep a good supply of brass in inventory, but due to factory production and delivery delays, we may occasionally be out of some cartridges. Norma Brass is made to such exact standards that the cartridges typically include machined case heads, drilled (not punched) flash holes and close tolerance wall thickness.

Safety Instruction Guide for 260 Remington Brass Case

Introduction

Thank you for choosing the 260 Remington Brass Case by Norma. This product is designed for serious reloaders seeking premium quality. To ensure safe handling and usage, please read and follow these safety instructions carefully.

General Safety Guidelines

- Always treat all ammunition components as if they are loaded.
- Store brass cases in a cool, dry place away from direct sunlight and moisture.
- Keep brass cases out of reach of children and unauthorized users.
- Use personal protective equipment (PPE) such as safety glasses and gloves when reloading.
- Familiarize yourself with local laws and regulations regarding reloading and ammunition storage.
- Regularly inspect your equipment and components for signs of wear or damage.

Specific Safety Precautions for Use

- **Hazard Identification:**

- Improper handling and storage can lead to accidents.
- Reloading without proper knowledge can cause malfunctions or injury.

- **Instructions to Avoid Hazards:**

- Do not exceed recommended loads as specified in reloading manuals.
- Ensure that the workspace is clean and organized to prevent accidents.
- Never mix different brands or types of brass cases.
- Use only compatible components for reloading (powder, primers, and bullets).
- Always check for proper headspace before using reloaded ammunition.
- Avoid distractions while reloading to maintain focus.

- **Age Specific Warnings:**

- This product is intended for use by adults. Keep it out of reach of minors.
- Ensure that anyone handling this product is knowledgeable about reloading practices.

Instructions for Installation and Usage

1. Preparation:

- Ensure that you have all necessary components: brass cases, powder, primers, and bullets.
- Read the reloading manual specific to the 260 Remington caliber for detailed instructions.

2. Reloading Process:

- Clean the brass cases before reloading to remove any dirt or debris.
- Inspect each case for damage or wear.
- Resize the cases as needed using a resizing die.
- Insert the primer into the primer pocket using a priming tool.
- Measure and add the appropriate amount of powder into each case.

- Seat the bullet firmly into the case mouth using a bullet seating die.
- Crimp the case if required, following the guidelines in your reloading manual.

3. PostReloading:

- Label your reloaded ammunition clearly with load data and date.
- Store reloaded ammunition in a safe and secure location.

Disposal Instructions

- Dispose of any defective or damaged brass cases responsibly.
- Follow local regulations for the disposal of hazardous materials.
- Do not discard reloading components in regular trash; check for recycling options.

Contact Information for Further Support

For any safety inquiries or additional support regarding the 260 Remington Brass Case, please consult your retailer or manufacturer. Always ensure that you have access to reliable information and resources for safe reloading practices.

By following these safety instructions, you can enjoy the benefits of reloading while minimizing risks. Thank you for prioritizing safety in your reloading activities.
